About Us

Since our establishment in year 1995, we are fast becoming the preferred choice of many companies. Mr. Mohit Raja is the honourable director of our company. We are in this business from more than a decade and have increased our annual turnover by more than 5 times till date. We are among the selected ones to have an ISO 9001:2000 certificate. We are the first ones to export cattle and Chick Feed from north India. We supply our product in 7 states of India in addition of exporting it to International in Sultanate of Oman and Iraq.

We have carved a niche as a broiler feed manufacturer and supplier in India. Our animal Chick Feed is highly admired by all our clients in the quality cautious market. The production process begins with the selection of raw materials having high nutritional value. Incoming raw-material passes through our labs for testing. Then the raw-material & premixes of medicines is mixed in the mixer under the strict supervision as per the formulation of the product. After this, analyst check the products in the lab, certain test are conducted for their analysis. After this, the material is packed in bags & stored in the dry place. We strictly follow our standards and abide by the quality and quantity process.
