About Us

CHIDAMBARAM FISHNETS PVT. LTD.

A reputed name in the market, Chidambaram Fishnets Pvt. Ltd. is located in Chennai, Tamil Nadu (India). Our products are widely appreciated for their accurate designs, durability, and corrosion resistant properties.

Our Journey so far

Mr.S.G.Jayaraman, the founder of Chidambaram Fishnets Pvt Ltd, was a teacher by profession in Killai, a village near Chidambaram. He has been observing the activities of the societies of fishermen in selling and distributing the fishnets and other accessories during his leisure time.

He wanted to give a try to the trading of these fishing accessories. Therefore he was engaging himself in this business in his free time under the banner Chidambaram Fishnets. He was ably assisted by his wife and mother in the trade. The business, which was started in a miniature scale, kept growing and demanded the full time attention of Mr. Jayaraman and therefore he left his profession of teaching and started concentrating on this business.

A shop was established in Chidambaram also the nearest town, and the business started treading on the growth path. As a next step sequel to the business Mr. Jayaraman wanted to put up production facilities and he was successful in establishing the net and twine manufacturing factory. To tap the potentials of up country markets, he established his business at Chennai.

Today

Currently the company is managed by his son Mr. Bhaskaran Jayaraman & Mr. S.G Jayaraman. Ever since it embarked into export business (in 1997) it started making exports to Srilanka, U.A.E and other African countries. Chidambaram Fishnets is constantly in search of other overseas markets and advance production facilities.

Chidambaram Fishnets Factory

Currently the company is managed by his son Mr. Bhaskaran Jayaraman & Mr. S.G Jayaraman.
