

ABOUT US

Chemlog is a UAE based trading house majoring in unified management of International business, was incorporated in 2009. The company's turnover is close to AED 170 million. We trade in various petrochemical / petroleum by-products sourced from the leading petrochemical companies and petroleum refineries mainly located in GCC and India subcontinent. The products range varies depending on the availability and requirement of our customers. Most of the products are the upper streams of aromatic fuel with high hydrocarbon contents. We are handling appx 15KT material per month.

NETWORK

Upholding the business philosophy of "competitiveness, openness, regulation and integrity", Chemlog, while in pursuit of enhancing procurement management, strengthening purchasing, and expanding international businesses, joined hands with leading oil and chemical companies to usher in a new and brighter development of global petroleum and chemical industry. Our network is widened across Saudi Arabia, Bahrain, Kuwait, Qatar, Rwanda, India, Kurdistan and Cambodia. The key areas of operations are as under.

United Arab Emirates:

UAE is our operations HQ where we have close associates actively involved in trading and processing of material. The trade patterns are well defined between each party. The processing material includes Pyrolysis Oil (both heavy & light), crude glycol, fuel oil and any products having high aromatic representation. The processed material are either exported or given to local refineries as blending feed stock. The main stream petroleum products are directly trading to Europe & Far East.

Saudi Arabia:

We directly source the materials from SABIC and its affiliated companies. Also we do have exclusive supply source of restricted commodities from Saudi Aramco and other private petrochemical manufacturing units. The products sourced are either exported to Bahrain or UAE for processing or for direct trading with trade partners across the globe.

Bahrain:

We do have Joint Venture operations with Middle East Recycleage WLL who is among the leading off-taker for asphalt from BAPCO. In addition to the refinery bi-products we have contracted supply agreement for Bitumen, MC30, MC70 and other water treatment components

Rwanda

Being a sovereign state in central and east Africa, we have considered Republic of Rwanda as a trade hub to cater Uganda, Tanzania, Burundi and Republic of Congo. We have our own registered office who supplies Ethanol throughout the region. Gum Arabic is another product we trade through this operation.

India

We are closely associated with International Traceability Systems Limited a broad based trading, sourcing, project management and development organisation to bridge the relationship between provider of services/products and end users in energy (Power and Oil/ Gas) , bio field, engineering, infra-structural and mining sectors.

Cambodia

The company had set up a factory for processing natural rubber cup lumps to Technically Specified Rubber (TSR) with a production capacity of 60 MT per day. Finished product specifications are to conform to TSR 5/10/20 grades.

PRODUCTS

Our product range focus in entire area of petroleum, petrochemical and industrial products which is dealt in bulk quantity. See below our product range:

Chemicals & Petrochemicals

ALCOHOLS

- Ethanol
- Methanol

AROMATICS

- Dry Gasoline
- PYGAS
- C9
- Light Pyrolysis Oil
- Heavy Pyrolysis Oil
- Wash Oil
- Skimmed Oil
- Oligomer
- Raffinate

FIBRE INTERMEDIATES

- Diethylene Glycol
- Monoethylene Glycol

OTHERS

- Ethylene Di-Chloride
- Hydrochloric Acid
- Hexane
- Petroleum Coke
- Paraffin wax
- Isobutylene

Petroleum products

- Diesel
- Bitumen
- Gas Oil
- Condensate
- Naphtha
- Sulfur
- White Spirit
- Hydraulic Oil

Rubber

- TSR 5/10/20 grades

PRODUCT PROCESSING

Of late we expanded the business activities into product processing as a different vertical of business which shall enhance our capabilities in trading customized quality product. Giving value addition to the high end crude, we current supply feed stocks for Gas Oil, Gasoline, Fuel Oil from hydrocarbon family and supplying MEG, TEG and DEG distilled from the crude glycol. The finished products are supplied in global market through our trade partners in Europe and Far East countries.

BOARD OF DIRECTORS

The company is successfully managed under the directorship of Mr. Joseph Varghese and Mr. James Jacob.

Mr. Joseph Varghese – Director
