## Welding Fixtures

**Welding Fixtures** are used almost in every sheet metal auto part manufacturing unit. The Welding Fixtures offered by us are suitable for those units where machining on casted or forged metals on VMC or HMC setup is done. Casted and forged items are not in uniform shape and are very typical to clamping, so these Welding Fixtures are required to hold the item. The use of Welding Fixtures reduces the lot of time and gives more rigidity to component for machining. We offer Welding Fixtures to the clients in different types and specifications at fair prices.
