ABOUT US

Raja Farms Private Limited is owned by Mr. Rajinder Kumar (CEO) who has experience of 13 years in this area. In addition, our company is under the management of Mr. Mohit Raja (Director). We are currently based in Rajpura (Punjab) and are certified by organizations such as ISO 9001:2000, Haccp, Fssai and Quality Warranty Management Standard.

Infrastructure

Our facility is spread over 10 acres of land endowed with fully automatic and imported machinery. The daily Production Capacity of our poultry farm is 80000 eggs. We use agro commodities as raw material that is sourced from trusted vendors only. We have a customized production facility where we package specific number like pack of 6, 12 or 30 of eggs as per the requirement of the retailers.

Clientele

We are one of the renowned Manufacturers and Suppliers of Poultry Eggs. We trusted by many retailers and have been supplying to various major companies. Some of our clients are Walmart, Metro cash & carry, Future Retails (Big Bazaar), Le Marche, Sabka Bazaar, 24x7, Max Hypermarket among many others.

Quality Assurance

Raja Farms Pvt. Ltd is an ISO 9001:2008 CERTIFIED company and has HACCP food grade, and quality warranty management standard, NEW ZEALAND.

"Peggs" is the name given to eggs that are not the regular ones laid in unhygienic and smelly poultry farms, but are produced in an environment that is just the opposite – totally clean, hygienic and mechanically packed.

"Peggs" delivers eggs that are of standardized quality and weight and which have a high nutritional value. The Unique Selling Proposition of "Peggs" is that from laying of eggs till their final packaging, these remain untouched by naked hands. These are mechanically tested on ultramodern machines thus delivering high quality. The brand provides customer satisfaction and helps customer to continue getting the same quality on an ongoing basis.

The producers of "Peggs" have focused a lot in convenience-packing.

Our Products

The Indian market has a high consumption pattern of eggs. The conventional way of packaging is the tray packing having 30 eggs each. The bigger tray is not very sturdy and it is difficult to carry the same home from the retailer. This is understood by promoters of Peggs and as "Peggs" involves technological intervention from production stage till packaging; it is packed in a convenience pack of six, twelve and twenty-four for retail consumption.
