

❖ Company Profile

Welcome to the world of **Soham Automation**, one of the leading manufacturers and exporters. Our company deals in an optimum quality range of electronic products such as **Industrial Automation Products, Process Control Instruments** etc. Our products are the best in their quality and working and have achieved a lot of acclamation from our clients spread worldwide. Because of our high standards, we have also gained the position as the most prominent process control equipment manufacturer and exporter from India.

We are a total customer driven company and we strive hard to achieve total satisfaction of our customers. We provide one of the best products that are authentic and never fail in their working. Our products can be availed at quite affordable prices and that too well within the stipulated time. Lastly, we value each and every client we have and try our level best to serve them with utmost care.

Vision

“Foremost in the minds of the scientific and engineering communities”

Mission

Excel as the premier global distributor of instrumentation to meet individual customer needs within the scientific and engineering communities, providing:

- Complete solutions
- Innovative products
- Expert technical assistance
- World-class customer service

❖ BUSINESS GOALS & OBJECTIVES:

Goals

- Better design & better products, continuously upgrading technology
- State – of – the- art design & development facilities
- State of the art manufacturing technology
- Foreign tie-ups with customers & vendors

Objectives

- Develop a shared vision of truly sustainable electronics & provide clear end-goals for design standards development.
- Promote the integration of end-of-life (EoL) considerations into front-end product designs.
- Discuss methods to extend the useful life of electronic products and assess the optimal amount of time to keep products in operation. Support the creation of environmental criteria for refurbished equipment. Address other high-priority questions and challenges identified by the stakeholder community
- Get Customer Centric in Sales & Service with single minded devotion to fulfil customer expectations in product design & requirements

Business strategy:

- Strong links with the market
- Rigorous financial discipline
- Balanced investment approach
- Labour flexibility
- Lean production.
- Pursuing Ever Higher Growth
- Strengthening Our Management Foundation

SOHAM AUTOMATION

❖ What We Do

❖ TURNKEY PROJECTS

Planning & Conceptual Design, Procurement, Testing, Installation, Commissioning, System Support, Training, Calibration.

❖ SOLUTION PROVIDER

- Engineering & Drafting
- Contracts & Project Management
- Electrical & Instrumentation
- Process Control Instrumentation
- Electrical Equipment :
- Mechanical & Flow Control :

❖ SYSTEM INTEGRATOR

We provide comprehensive technology skills and solutions to the global customers with the most cost effective solutions in tailored control systems. We specialize in design, engineering and supply of complete turnkey Automation Solutions, from the PLCs/RTUs and HMIs to distributed controllers SCADA, DCS, and remote operating products using the up-to-date advanced communications.

MECHANICAL AND FLOW CONTROL

The Mechanical and Flow Control division offers a unique combination of comprehensive resources and services which makes us a single source supplier for major projects.

FLOW METERING PACKAGES

For Flow Metering Packages using P.D. Meter, Turbine Meter, Vortex Meter, Magnetic Meter, and Multi-Path Ultrasonic Flow Meter.

- Engineering, Design of Metering Packages
- Assembly, testing
- Installation, commissioning & Start-up

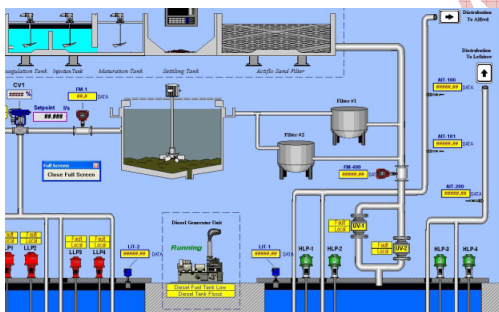

Flow Metering Packages

We provides total solution for the metering packages for oil & Gas industries. Our turnkey solution in this field ranges from design, engineering, procurement, construction, installation and commissioning.

Our success in the field is achieved by our understanding the need and importance of the subject and by being one of the few independent measurement integrators allow as to select the optimum cost effective solution for the application.

INSTRUMENTATION AND AUTOMATION

Instrumentation is generally considered to be all of the process; wetted measurement and control devices, but many users also refer to some control room equipment (Recorders, PLC, Alarm Panels, Speed Control Panels etc.) as instrumentation.

Design Studies:

Our Scope of Supply Cover Instrumentations for process industries may include Indicators, Transmitters, Switches, Regulators, and/or controllers for:

We are able to measure & Interface the contain like

- | | | |
|---------------------|---------------|------------------|
| Temperature | Humidity | Moisture |
| Pressure/Vacuum | Flow | Level |
| Vibration | Sound level | Thickness |
| PH/TDS/Conductivity | Gas Detection | Valve Automation |
| I/P-E/P Positioner | PLC/SCADA | & Many Other |

Quality policy & objectives

Provide quality product is the main aim of our organization. This unit is managed by a team of experts who are highly qualified and experienced. They never compromise on the quality front of the products. they are equipped with sophisticated machinery to conduct various quality tests to ensure their utility in various industrial applications.

Our products are tested on various parameters like:

- Temperature
- Pressure
- Vacuum
- Relative humidity
- Level and data logging
- Synchronized Time

Service pledge

Client satisfaction is of highest priority as we are a client based company. We provide superior quality products to our clients by maintaining a pleasant relationship with our clients achieving 100% satisfaction of our clients

Industry We Serve

- CHEMICAL
- DYES & CHEMICALS
- MINING
- OIL & GAS
- PAPER & PULP
- DRUGS & PHARMACEUTICALS
- REFIENRY
- TEXTILE
- STEEL
- SUGAR
- POWER

Our Commercial Detail

COMPANY ADDRESS – 33 SAPNAY, NEAR PARIMAL UNDER PASS
PALDI, AHMEDABAD – 380 007.

COMPANY'S TIN NO – 24074100676

COMPANY'S CST NO – 24574100676

COMPANY'S PAN NO – AYTPS110M

COMPANY'S S.S.I NO – 24 – 007 – 21 - 02938

EXCISE REGISTRATION NO – AYTPS1105M ED 001

D & B D-U-N-S No. - 65-053-9302

OUR BANKER – HDFC BANK LTD

BRANCH ADDRESS – SAPATH III, NEAR GNHC TOWER, S.G. HIGHWAY,
AHMEDABAD – 380051

ACCOUNT TYPE – CURRENT

ACCOUNT NO – 03062320001766

NEFT/RTGS/IFSC DETAIL – HDFC000306

Contact

33, SAPNAY, Near Parimal Crossing, Paldi, Ahmedabad - 380 007. GUJARAT.
