

FloorCare

PRODUCT RANGE
CATALOGUE

The development of floors and flooring materials within the broad range of commercial developments has been very pronounced over the past decade.

Not only have floors become more exotic in both design and material selection but, equally, we all expect to see the floor maintained to an exceptionally high standard, literally sparkling cleaning, in high profile locations; super clean in the workplace and public space... just as we would expect in our own living space.

The Right Equipment For The Right Job Will Provide The Right Results.

Hurricane *The 1000W Size*

The single disc floor machine is the heart of all hard floor cleaning and maintenance.

The Hurricane motor concept is designed to keep its "Cool" under continuous and arduous operation whilst its seamless power transmission to the floor is via our longlife, oil filled, low load planetary gearbox. THE HFM1015 150rpm machine is equipped with the 1000W Hurricane motor providing a lighter weight and economical solution.

- **Planetary Gearbox**
Longlife, oil filled, low load planetary gearbox.
- **Hi-Cool Motor**
Heavy duty, long life motor.
- **ATC (Automatic Torque Control)**
Monitoring and balancing power input throughout the cleaning cycle.
- **Fully Adjustable Handle**
For the perfect working position.

Large solution tank option

NuLoc2 Pad Drive System option

HFM1015

All Hurricane models incorporate our ATC, Automatic Torque Control, monitoring and balancing operational power input throughout the cleaning cycle.

Optional Hi-Dust motor filter

Planetary gearbox

Simple operator control

Model	Motor	Deck	Brush	Pad	Power	Speed	Range	Weight	Dimensions (WxLxH)
HFM1015	1000W	450mm	450mm	400mm	230V AC 50Hz	150rpm	32m	26kg	460x560x1250mm

Hurricane *The 1500W Size*

The HFM1500 series is available in a choice of 4 different speeds, 150rpm, 230rpm, 300rpm and extra Hi-speed 450rpm.

All models are fitted as standard with our generous oversize Hurricane 1500W drive motor allowing for higher speeds and the use of added weight as required.

The longlife, low load, oil filled planetary gearbox ensures seamless power transmission to the floor ensuring excellent results.

With the range of speeds available machines can be selected to cover the whole range of floor care maintenance be it scrubbing, polishing, buffing, burnishing or spray cleaning.

- **Planetary Gearbox**
Longlife, oil filled, low load planetary gearbox.
- **NuLoc2 Systems**
Optional pad interchange systems, quick, simple and secure.
- **Hi-Cool Motor**
1500W motor allowing for higher speeds and the use of added weight as required. Available in a choice of 4 speeds 150rpm, 230rpm, 300rpm, 450rpm.
- **ATC (Automatic Torque Control)**
Monitoring and balancing power input throughout the cleaning cycle.
- **Fully Adjustable Handle**
Adjustable for the perfect position.

- **Accessories**
A range of accessories available to cover wet applications, carpet shampooing, vacuum polishing and floor sanding.

HFM1515

Optional spray clean system

Optional 10kg additional weight

Model	Motor	Deck	Brush	Pad	Power	Speed	Vacuum	Range	Weight	Dimensions (WxLxH)

HFM1523						230rpm				
HFM1530						300rpm				
HFM1545						450rpm				

Hurricane *The Two Speed*

There are more and more applications where the floor machine must fulfil two functions literally at the "Flick of a Switch".

The HFT model is fitted with the Hurricane dual performance motor rated at 1000W / 1250W providing optimised power options at the two different operating speeds. For scrubbing you want 150rpm but for polishing 300rpm giving quicker and better results. This is very much the case in hospitals, care homes, hotels, schools, etc. where the needs vary quite substantially each day and two separate machines are not always practical or available.

Adjustable handle

Optional 10kg additional weight (150rpm)

HFT1530

Model	Motor	Deck	Brush	Pad	Power	Speed	Vacuum	Range	Weight	Dimensions (WxLxH)
HFT1530	1000 / 1250W	450mm	450mm	400mm	230V AC 50Hz	150 / 300rpm	Optional	32m	32kg	460x560x1250mm

6 (See page 36 for full accessories) Images may include optional accessories for illustration purposes.

HFT Twin speed selection

- **Planetary Gearbox**
Longlife, oil filled, low load planetary gearbox.
- **Dual Speed**
Dual speed motor giving speeds of 150rpm for scrubbing and 300rpm for polishing.
- **ATC (Automatic Torque Control)**
Monitoring and balancing power input throughout the cleaning cycle.
- **Accessories**
A range of accessories available to cover wet applications, carpet shampooing, vacuum polishing and floor sanding.

Easy plugged cable storage

Hurricane NuShine *The High Speed Burnisher*

Great styling, easy control and powerful. Designed to allow for effortless performance at higher burnishing speeds. When size and weight are a factor the HNS offers the ideal balance.

A compact yet powerful machine with supreme manoeuvrability. If you want stunning results combined with effortless performance then this is the machine for you. The NuShine has complete directional control which means a consistently high standard of finish.

LCD power / overload indicator

- **Powerful Hi-Cool 1500W Motor**
Heavy duty, longlife motor.
- **Automatic Torque Control**
Monitoring power and balance.
- **Fully Adjustable Operator Handle**
Easy to use and fully adjustable operator handle.
- **Effortless**
All direction control with superb manoeuvrability.
- **Brush Pressure Monitor**
Allowing you to be in control of the surface finish achieving optimum results with superior handling.

Designed to move easily in any direction

Simple load adjustment

Hurricane Hi-Cool heavy duty motor technology

HNS1550

(See page 36 for full accessories) 7

NuSpeed *The Super Compact Size*

The LoLine will put truly usable power, convenience and efficiency in the hands of the operator, giving superb results.

The LoLine rotary has been designed specifically to meet the demand and raise the handling and performance levels to an exceptional user friendly standard.

Our LoLine NLL332 can claim performance characteristics equal to that of bigger, more industrial machines, yet with an ease and speed of operation that will immediately endear it to any user.

A full range of 33cm (13") brushes and pad drives allows the machine to be used for all of the primary floor care functions.

Solution tank option

Folds flat for easy storage

- Pads and Brushes**
 Full range of 33cm (13") brushes and pad drives for all primary floor care functions.
- Easy Storage**
 Only 18kg in weight, compact size and folding design means easy and convenient to move and store.
- 200rpm**
 200rpm means versatility but equals performance of bigger more industrial machines.

Model	Motor	Deck	Brush	Pad	Power	Speed	Vacuum	Range	Weight	Dimensions (WxLxH)
NLL332	400W	330mm	330mm	330mm	230V AC 50/60Hz	200rpm	-	32m	18kg	450x580x1185mm

8 Images may include optional accessories for illustration purposes.

NuSpeed *The Full Size*

The NuSpeed range of professional FloorCare machines has been specifically designed to provide optimum results whatever the application.

All NuSpeed NR models within the range are equipped with our performance enhancing ATC (Automatic Torque Control) feature. This is a unique system that monitors operation and boosts torque as required to provide consistent performance under varying load conditions.

- ATC (Automatic Torque Control)**
 Monitoring and balancing power input throughout the cleaning cycle.
- Xtra Weight**
 Unique NuSpeed design means an increase in operating weight of 40kg can be achieved within the standard specification.
- Easy Storage**
 Compact size and folding handle means easy and convenient to move and store.

TwinTec *The Cylinder Machine*

Designed to be compact, easy to operate and exceptionally manoeuvrable when in use, whilst the oversized transit wheels allow easy movement to and from any specific locations.

The cylinder power brush ensures deep cleaning performance, whilst the twin water pick-up nozzles allow multi-directional operation which is vitally important when cleaning narrow walkways often found in shops and food stores. You can walk in forwards and reverse out without turning and without loss of scrubbing and drying performance.

Simple brush access

Overfill cut-off system

- **Compact**
Yet exceptionally manoeuvrable.
- **Multi-directional**
Twin water pick-up nozzles for all round cleaning.
- **Cylinder Power Brush**
Ensures deep cleaning.
- **Swing Steering**
Provides easy directional control.
- **Transit Wheels**
Oversized transit wheels allow easy movement to and from any location.
- **Simple Control**
Easy to use operator controls.

Adjustable water flow

Operator controls

TT1535G

TwinTec *The Compact Single Disc*

The TwinTec 1840 cable machine has been designed to address the question of size being exceptionally compact, yet with performance equal to bigger machines.

The compact design really does allow this machine to clean in areas normally cleaned by hand, yet 30% to 40% faster and better.

Although designed for small and congested areas the TT1840G is equally at home in larger areas and can be used in conjunction with our cable roll, "the cable reel that rolls", extending the cable length from 20m to 40m without any loss of performance.

The style and proportion of the polyform water tanks allow for the machine to adopt a convenient tilt position with only approximately 5 litres in the clean water tank to facilitate single handed brush or pad changing.

20m Cable reel (optional)

TT1840G

- **Water Feed System**
360° liquid feed for uniform delivery.
- **Convenient**
Fold flat design for easy transport from site to site.
- **Rugged Construction**
Tough all steel chassis design.
- **Fully Adjustable Handle**
For the perfect working position.
- **Low Noise**
Quieter, unobtrusive design means true versatility.
- **Easy Change**
Easy one handed brush or pad changing.

Visible operation

Simple controls

Easy and generous fill cap

TwinTec *A Range of Two*

The TwinTec mains cable range has masterful performance moving under its own brush power with amazing speed and purpose. Available with 45 or 55cm scrub width.

When selecting a scrubber dryer machine, the area that needs to be cleaned and the time available to clean it will determine the preferred size of the brush system.

Care must be taken, however, to ensure that bigger is better but not too big, taking into account the obstructions that must be navigated during the daily cleaning cycle.

- **TwinFlo Vacuum Motor**
Provides exceptional wet pick-up.
- **Structofoam Tilting Brush Deck**
Making brush changes quick and simple.
- **Planetary Gearbox**
Longlife, oil filled, low load gearbox.
- **Simple Control**
Simple on / off trigger controls.
- **Polyform Tanks**
Heavy duty clean and dirty water tanks.
- **Flexifill System**
Easy filling and emptying system.
- **Structofoam Chassis**
Incredibly tough and chemical resistant Structofoam moulded chassis.

Additional fill and filter point

Fully adjustable handle

Tilting deck for easy brush change and storage

TT4055G

TT4045G

Full moulded chassis and non-marking wheels

TwinTec *Big & Bold*

The TT6650G cable machine is a genuine workhorse providing a truly cost effective answer to big area low cost floor maintenance.

First and foremost the user will find the TT6650G as easy to use as our smaller machines with the control and operation systems to exactly the same specification, it handles like a dream.

Big capacity polyform tanks provide a full 60 litre capacity to match the exceptionally stable 65cm single brush scrubbing head, complemented by an oversized, floating aluminium floor tool.

TT6650G

Stainless steel chassis

Easy tank filling access

Tilting deck for easy brush / pad change and storage

- **Polyform Tanks**
Heavy duty clean and dirty water tanks.
- **Structofoam Tilting Brush Deck**
Making brush changes quick and simple.
- **Fully Adjustable Handle**
For the perfect working position.
- **TwinFlo Vacuum Motor**
Provides exceptional wet pick-up.
- **Stainless Chassis**
Strong stainless steel chassis.

TwinTec Battery GelTec Compact

Does 23 years of practice make a better scrubber dryer? Yes, the TTB345 is where it all started. It's been a leader for 23 years and today's new GelTec TGB3045 is a further advance and tomorrow's new classic.

The TGB3045 offers the best of both worlds with compact design and a full width cleaning capability.

- **Easy to use controls**
Now with red touch user friendly controls.
- **Gel Batteries**
Up to 2hr runtime, 10hr charge time.
- **Battery and Hour Meter**
Simple clear hour / battery indicator.
- **Fully Adjustable Handle**
Flat to upright for perfect position.
- **Structfoam Chassis**
Incredibly tough and chemical resistant polyform moulded chassis.
- **30L Capacity Polyform Tank**
Heavy duty clean and dirty water tanks.
- **45cm Scrub Width**

TwinTec Battery *Setting the Standard*

With these machines every part is designed to combine the best in functionality and reliability.

The TGB4045 is the classic Numatic TwinTec 24V battery model. It started its life with 30 litre capacity, now raised to 40 litre, and is today the most popular model worldwide. The premium specification starts with a steel chassis, structofoam tilting brush deck, polyform tanks, fully sealed gel batteries, built in battery charger, heavy duty TwinFlo wet pick-up vacuum system and heavy duty geared brush drive.

The 4055 is one size up from the 4045 containing all the advanced TwinTec 24V features but with a 20% increased cleaning path.

The 4055T (traction) offers effortless cleaning due to the powerful traction unit. A traction model is essential where inclines such as wheelchair ramps are present.

Simple controls

- Fully Sealed Gel Batteries**
 Maintenance free batteries to ensure the highest standard of operational life.
- Twinflo Vacuum Motor**
 Provides exceptional wet pick-up.
- Structofoam Tilting Brush Deck**
 Making brush and pad changing quick and easy.
- Easy Operation**
 Simple on / off trigger control.
- On-board Charging**
 Convenient and easy, just plug and go.

TwinTec Battery *50% More Capacity for bigger areas*

Easy-to-use controls combined with professional cleaning.

The 55cm (20") size of TwinTec is becoming more and more popular and, in support of this, we have introduced two new models with 60 litre capacity, a 50% increase over the 40 litre models and available in both traction and non-traction specifications.

Both models of TGB6055 have 60 litre capacity and a 55cm (20") single brush scrubbing path, dual brush pressure selection, built in battery charging, easy fill and easy emptying facilities, with added traction power drive for the 6055T model which would be essential if inclines or ramps are involved.

NEW

TwinTec Battery *Twin Brush TGB8572*

When a walk behind is better than a ride-on the 8572 is the perfect option. The powerful twin brush design provides a 72cm scrub width, tackling the biggest of areas with ease. An 85 litre capacity keeps you cleaning for longer.

Ease of use and maintenance is at the heart of the design for the 8572. Simple, intuitive controls get you working quickly whilst the colour coding of components guide the operator through use. A flip hinge tank allows for quick and easy access to the GelTec maintenance free batteries.

- **Twin Brush Design**
Powerful cleaning with wide-track design.
- **Simple Operator Controls**
- **On-board Charging**
Convenient and easy, just plug and go.
- **Gel Batteries**
Maintenance free.
- **Flexifill System**
Easy filling and emptying with flexifill system.
- **Battery and Hour Meter**
Simple clear hour / battery indicator.
- **Traction Drive System**
Makes the cleaning of inclines safer and easier.

Compact Ride-on 8055

Not too big, not too small, good capacity, simple controls, excellent performance and very competitive in terms of price.

In truth the CRO8055G is competitive with most walk behinds of the same size. So now you can sit rather than walk and by virtue of the exceptional manoeuvrability, substantial time will be saved on middle size applications.

The CRO8055G also introduces the logic of two machines in place of something much bigger or, to put it another way, Two for the Price of One with added versatility and convenience.

The CRO will go into places where bigger machines are not suitable and anything smaller is just too small.

CRO8055G

- Compact Design**
 Means easy cleaning in tight spaces.
- Anti-tip System**
 Prevents the machine from tipping when cornering on full lock.
- On-board Charging**
 Easy and convenient, just plug and go. Fully sealed low maintenance Gel batteries.
- Flexifill System**
 Easy filling and emptying with the flexifill system.
- Easy Operator Control**
 With fully adjustable speed control.
- Safety Features**
 Emergency stop button, removable power off key, horn button and built in hazard warning light are just a few of the safety features included.
- Easy Maintenance**
 Easy access to batteries and fuses for maintenance.

Flexifill hose

TwinTec Ride-on *A Serious Workhorse*

A more user friendly ride-on scrubber dryer would be hard to find. Designed to provide long, simple and reliable service day in day out whatever the environment.

The TRO650G is based on the well established engineering of the Vario TTV678 model but simplified to provide a truly professional, cost effective workhorse. You can vary the water flow and the operating speed to suit a whole host of conditions from big areas lightly soiled to heavy duty scrubbing in more arduous conditions.

Easy brush access

TRO650G

The TRO650G is blessed with a commanding operator driving position, front wheel traction drive, a magnificent turning circle and one pass performance that really will ensure you get the standard you want, exactly when you want it... and fast.

Easy maintenance access

TwinTec Vario *Three Into One Does Go*

A comfortable, driver friendly, 120 litre, front wheel drive machine with a fantastic turning radius, gets in and out of places other machines just won't go.

The TwinTec Vario "three in one" (3 in 1) design has proved itself to be almost the perfect balance between sound common sense engineering and innovative and truly functional technology.

Yes, one machine which can be set to 3 different working widths: 650, 750 and 850 and all at the flick of a simple selection lever. This doesn't even need tools – anybody can do it at any time. You want it wide – fine... you want it narrow – 30 seconds is all that it takes.

TTV678

The Vario TTV678G, three brush widths in one system

The unique arrangement of 3 independent scrubbing heads which, by virtue of a simple adjustment mechanism, can provide a choice of scrubbing widths which, with the addition of a selection of brushes and pads, can provide customised performance on almost any surface application.

As unique today as when it started - patented technology

- Vario 3 in 1 Brush System**
 Simple adjustment mechanism provides a choice of scrubbing widths suitable for almost any surface.
- Easy Dosing Pre-sets**
 Correct chemical dosing for every task.
- Complete Cleaning Control**
 Operator has full control of cleaning speed, brush speed, water flow and chemical dosing.
- Simple Operator Control**
 Soft touch dashboard control system.
- Easy Maintenance**
 Easy access to batteries and fuses for service purposes and brush change is simple with the swing out brush cover.
- On-board Charger**
 Simple and convenient, just plug and go. Fully sealed low maintenance Gel batteries.
- Small Turning Radius**
 Means great cleaning even in tight spaces.
- Safety Features**
 Emergency stop button, power off removable key, horn button and hazard warning light and built in reversing alarm are just a few of the many safety features included.

Control panel

Vario, the machine that gives you what you want.

In many applications changing circumstances change specific needs, so with the Vario you can change the specification to suit your exact requirements. It's not only the working widths that can be changed; it's the full operating performance that is under the driver's complete control – cleaning speed, brush speed, water flow and chemical dosing, nothing left to chance.

NuTab *Dosing made simple just add water*

Selecting a cleaning additive can be confusing, never mind how to store, measure and dispense liquid cleaning additives.

NuTab is simple just pop in a tablet with each tank of water for effective cleaning with a fresh fragrance.

20-Litres of water,
1 NuTab and...

**Super
Clean
Floors**

- **Maintenance Cleaning**
Highly active in cleaning due to special surfactants and alkali solution.
- **Cleans & Cares in one Step**
Antistatic and dirt-repellent protective film.
- **Economic & Productive**
1 NuTab per 20 litres of water.
90 NuTabs - 9 packs of 10 tablets.

Dissolvable NuTab tablet

Accessories
