IRRIGATION SYSTEMS

www.greendrip.net

About us

Operational from Rajkot, Gujarat, Green Irrigation has managed to carve a niche in the industry for our superior quality products that we offer at reasonable rates, for all over the world. We guarantee prompt and efficient delivery of our products within the defined time line.

Infrastructure : We have a state of the art manufacturing unit spread over 25,000 sq ft, outfitted with ultra modern tools and technology. We have built-in quality control and R&D departments enabling us to run qualitative tests on various parameters on our products.

Quality : Being an ISO 9001 - 2008 Certified firm, we take great care in offering quality. All our products are manufactured using superior quality raw materials and the final products are taken through stringent quality tests to ensure reliability, durability, performance, and compliance with the international quality standards.

Duly Delivery : We have an extensive storage facility to maintain stocks of our products in suitable conditions to facilitate a better product condition and prompt delivery. Our proficient team of packaging and delivery experts undertake the task of making sure that the products reach the buyers in intact conditions and within the promised time.

Vision : We firmly believe that our successes depend on our customers. Our strength lies in working closely with them to create value and trust, together with superior products, prompt service and competitive pricing. The company has a clear vision to provide innovative solutions for any industrial product requirement. We also owe our success to our people. The ones who work with us towards a common vision. Trust, respect and a healthy relationship with our staff has resulted in superior performance over the years and strive hard to have latest and the latest production technology at the least of the prices to cater to the growth of Agro Industry.

Mission : As the leading supplier & manufacturers of irrigation products in India. Our mission is to understand the customer requirement, offer timely deliveries of quality proven products at best competitive price. Our constant emphasis on product quality and client satisfaction has enabled us to mark a difference for our products like :

- HDPE Pipe
- PE Fitting
- Emitting Pipe
- Compression Fitting
- Drip Irrigation System
- Drip Accessories
- Sprinkler Irrigation System
- Sprinkler Pipe
- Sprinkler Accessories
- Sprinkler Nozzle
- Mini-Sprinkler
- Mini-Sprinkler Part & Full Circle

Values of Green Drip

- Corporate culture which takes its source from our social culture and values
- To be true and lasting example for the future generations
- Determination & Ambition
- Devotion & Innovativeness
- Reliability & Participation
- Transparency & Responsibility
- Consistency & Commitment

Drip Irrigation Emitting Pipes

Gaining commendation from all corners, we are a major Manufacturer, Exporter & Supplier in the industry. Our quality controllers work hard to keep the quality in conformity with industrial quality standards. We design Drip Irrigation Emitting Pipes making use of high grade materials in conformity to defined market norms. As per the different specifications by customers, we offer them in bulk quantity at affordable rates.

Features :

- Non corrosive and non reactive to chemicals
- Does not melt in solar heat
- Comes in 1 to 4 class

Technical Specifications :

- OD - 12, 16 & 20 mm
- Class - 1 To 4 Class
- Pressure - 0.5 To 2.5 Kg/Cm²
- Spacing - 30 cm To 150 Cm

Other Details :

Minimum Order Quantity : 25000 Meter(s)

Drip Irrigation Lateral Pipes

Drip Irrigation Lateral Pipes are made using virgin special grade polyethylene. They have a spacing of 30 cm to 150 cm so that it can fit in diverse drip systems and pipe fittings. They are resistant to pressure of up to 0.5 to 2.5 kg per square cm. Our stern quality tests mean we get no grievances from customers. They are immune to cracking and breaking under water pressure or solar heat.

Features :

- Non corrosive and non reactive to chemicals
- Does not melt in solar heat
- Comes in 1 to 4 class

Technical Specifications :

- OD - 12, 16 & 20 mm
- Class - 1 To 4 Class
- Pressure - 0.5 To 2.5 Kg/Cm²
- Spacing - 30 cm To 150 Cm

Other Details :

Minimum Order Quantity - 25000 Meter(s)

Flat Drip Irrigation Pipe

Having a spacing of 30 cm to 150 cm, Flat Drip Irrigation Pipe can be fitted in various drip systems and pipe fittings. It is resistant to cracking or breaking under water pressure or solar heat. Made of special grade polyethylene, it can take pressure of up to 0.5 to 2.5 kg per square cm. No complaints are received by us thanks to our quality checks.

Features:

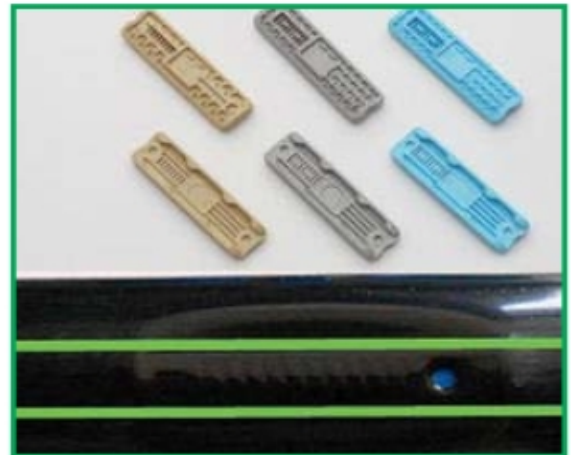

- Non corrosive and non reactive to chemicals
- Does not melt in solar heat
- Comes in 1 to 4 class

Technical Specifications:

- OD: 12, 16 & 20 mm
- Class: 1 To 4 Class
- Pressure: 0.5 To 2.5 Kg/Cm²
- Spacing: 30 cm To 150 Cm

Other Details:

Minimum Order Quantity: 25000 Meter(s)

Mini Sprinkler Coil

Made of virgin special grade polyethylene, Mini Sprinkler Coil is not vulnerable to breaking under pressure or solar heat. It can be fit into several drip systems and pipe fittings as they have a spacing of 30 cm to 150 cm. A pressure of up to 0.5 to 2.5 kg per square cm can be withstood by it. We get no complaints thanks to our strict quality tests.

Features :

- Non corrosive and non reactive to chemicals
- Does not melt in solar heat
- Comes in 1 to 4 class

Technical Specifications :

- OD - 12, 16 & 20 mm
- Class - 1 To 4 Class
- Pressure - 0.5 To 2.5 Kg/Cm²
- Spacing - 30 cm To 150 Cm

Other Details :

Minimum Order Quantity - 25000 Meter(s)

Our Products

Emitting Coil

We use virgin special grade polyethylene in making Emitting Coil. It can be fitted in several drip systems and pipe fittings due to having a spacing of 30 cm to 150 cm. Thanks to our thorough quality tests, we get no complaints. It can resist under water pressure or solar heat as well as pressure of up to 0.5 to 2.5 kg per square cm.

Features :

- Non corrosive and non reactive to chemicals
- Does not melt in solar heat
- Comes in 1 to 4 class

Technical Specifications :

- OD - 12, 16 & 20 mm
- Class - 1 To 4 Class
- Pressure - 0.5 To 2.5 Kg/Cm²
- Spacing - 30 cm To 150 Cm

Other Details :

Minimum Order Quantity - 25000 Meter(s)

Mini Water Sprinkler

With a firm dedication towards delivering the unrivaled quality, we present a wide range of Mini Water Sprinkler to our customers. The quality on offer is unmatched as we take special care of quality by complying it with the highest grades of quality set by the industry. We also deliver at your doorstep at your ease owing to our first-rate distribution system for pocket friendly rates.

Features:

- Designed to perfection
- Comes with mini sprinkler nozzle
- Perfect for close spacing farms

Other Details:

Minimum Order Quantity: 25000 Meter(s)

Drip Irrigation System

Designed by utilizing top notch components in adherence to set market standards, Drip Irrigation System is made as per the specification by customers. It is available for bulk quantities at affordable rates. High quality and ease of installation make our range popular all over the country. The vendors from whom we purchase our raw material are known to provide nothing under the first grade quality.

Features :

- low thermal conductivity
- long life
- Require less maintenance

Advantages :

- Minimized fertilizer/nutrient loss due to localized application and reduced leaching
- High water application efficiency
- Leveling of the field not necessary
- Ability to irrigate irregular shaped fields
- Allows safe use of recycled water
- Moisture within the root zone can be maintained at field capacity
- Soil type plays less important role in frequency of irrigation
- Minimized soil erosion
- Highly uniform distribution of water
- Variation in supply can be regulated by regulating the valves and drippers
- Fertigation can easily be included with minimal waste of fertilizers
- Foliage remains dry thus reducing the risk of disease
- Usually operated at lower pressure than other types of pressurized irrigation, reducing energy costs

Other Details :

Minimum Order Quantity : 25000 Meter(s)

Specifications

Product Name : 'GREEN DRIP' brand Flat Drip Irrigation System

Range : 12mm, 16mm & 20mm dia with spacing of 30 cm to 150 cm and 1 to 4 LPH in class I & II

Our Products

Sprinkler Pipes

For its quality, performance and long life, our Sprinkler Pipes is widely used in Sprinkler and Drip Irrigation System for the main and sub-main line. We have been widely appreciated by our customers for the engineering efforts put into the designs of these pipes. Our prices for this product are the best you would get in the market for such quality.

Features :

- Sturdy structural design that withstands pressure
- Perfect application for irrigation
- Multi directional operation

Details :

- Standard - Part – 1 & 2 Type - Regular, Notch and "C" clamp
- Application - Sprinkler and Drip Irrigation System for main

Other Details :

- Minimum Order Quantity - 25000 Meter(s)
