

JOURNALS

1. Biochemistry
2. Microbiology
3. Biotechnology
4. Agriculture
5. Bioprocess
6. Biomedical
7. Molecular biology
8. Genetic Engineering
9. Enzymology
10. Mechanical

RESEARCH AREAS OFFERED

1. Specific plant compound analysis
2. Identification of nutrient deficiencies in plants and soil
3. Determination of Nitrogen content of any sample
4. Estimation of Purity of any sample
5. Antioxidant studies of plants
6. Estimation of micronutrients in samples
7. Micropropagation standardization
8. Biochemical studies
9. Bioprocess studies
11. Pathological studies
12. Enzymology and its kinetics
13. Microbial studies
14. Environment pollution – cause and its study on various fields
15. Biofuel production
16. Bioproduct isolation
17. Organic farming
