

Earth Automation

Earth Automation are engaged in manufacturing control panel, trading, supplying and servicing of a wide range of automation products LIKE All kind of control panel & power panel, SCADA, Data Logging & Reporting System, PLC Control System, All Kind of Heating Zone Control Panel, Flameproof Control Panel, HMI Control Panel, All Kind of plastic industries Machine Control Panel, Single Drive System, APFC, HT, PCC, & LDB Panel etc, Stepper Motor & Drives, High Speed Spindle Motor, AC Gear Motor & Reducer, VFD Vector Drives, General Purpose AC Drives, Solar Pump Controller, Pneumatic Systems.

EARTH AUTOMATION

was founded in the year 2012, as a prominent Manufacturer, Supplier and Trader of a comprehensive range of Automation, Integration Systems & Solution. With the objective of providing our customers optimal solutions, we have brought forward Control and Power Panels, PLC Systems. These systems are manufactured using qualitative components, as per the industry laid parameters. As we regulate and conduct our fabrication procedure stringently in order to maintain & achieve flawless configuration of these products, we ensure our customers flawless usage of these panels & systems. In addition, we render automation and after sales services, using advanced methodology with the help of trained technocrats.

Being committed to bring forth user-friendly and maintenance free products, we have developed our workplace, equipped with the advanced range of machinery for conducting our fabrication tasks. Backed by this technologically advanced equipment, we offer our customers the outcome with qualitative features of hassle-free performance & longer functional life. Today, in our specified business, we have become a trusted name and are continuously strengthening our market position, backed by our impeccable range of products. It would not have been possible for us of to make our customers satisfied without taking aid of our hardworking professionals. They are the regulatory bodies who are responsible for executing the innovative engineering ideas and make our customers experience flawless offerings. As we have always believed that excellence is possible only through competence & hard work, our products are offered with the assured capital value & user-friendly operations. Our customers are assured transparent business dealings, on account of purchase of our products. Determination & efforts combined with strong feedback and trust bestowed on us by our customers, together have enabled us in becoming a global brand.

Control Panels

APFC Control Pannel

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

Twin Pump Control Panel

Usage/Application	Pressure Booster System / Dewatering system / Multi tank system
Motor	Upto 100HP
Switchgear	Original Schneider or L&T
Cascading	1 working + 1 standby
Parameter Setting	Digital by keypad
Pump Protection	High / Low voltage,Over / Under current,Dry run,phase failure,phase unbalance etc.

Motor Control Panel

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

PLC & HMI Based Control Panel

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

Control Panels

**PLC Based
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

Power Control Panel

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

**Power Distribution
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

**Relay Based
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

Control Panels

**SSR Based
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

**Thyristor
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

**DOL Starter
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

**DG Synchronizing
Control Panel**

Feature	Longer functional life
Material	Mild Steel
Power Source	Electric
Surface	Powder Coated
Application	Commercial & Industrial
Quality	Best
Certificate	CE Certified
Size	Multisizes

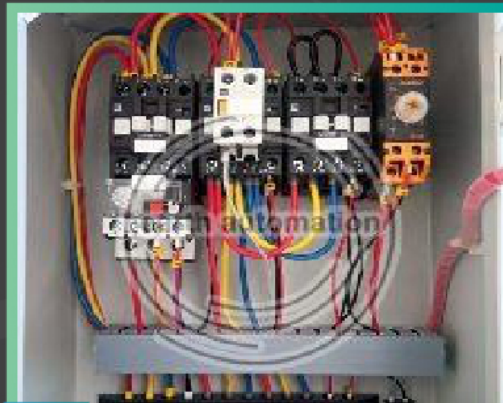

Control Panels

Busbar
Control Panel

SCADA Control Panel

Star Delta Starter
Control Panel

VFD Drive
