

RAKESH BRICKS

CONTRACTOR & PROPERTIES

Rakesh Bricks Contractor & Properties proudly presents itself as a Palwal (Haryana) based company that has been active in the construction industry for over two decades. The company is known as a dependable manufacturer and supplier of premium quality construction materials like red bricks, clay bricks, cement bricks, fly ash bricks, and AAC blocks, which are immensely appreciated for their strength and dimensional accuracy. The entire range of construction materials that we offer are made using superior grade materials and advanced equipment ensuring the best quality and long life. We can make these materials available in bulk quantities and ship the same at any client location. Rakesh Bricks Contractor & Properties was incorporated in the year 1992 when the enterprising prof

ABOUT US

Rakesh Bricks Contractor & Properties proudly presents itself as a Palwal (Haryana) based company that has been active in the construction industry for over two decades. The company is known as a dependable manufacturer and supplier of premium quality construction materials like red bricks, clay bricks, cement bricks, fly ash bricks, and AAC blocks, which are immensely appreciated for their strength and dimensional accuracy. The entire range of construction materials that we offer are made using superior grade materials and advanced equipment ensuring the best quality and long life. We can make these materials available in bulk quantities and ship the same at any client location.

Rakesh Bricks Contractor & Properties was incorporated in the year 1992 when the enterprising professional i.e. Mr. Rakesh, who is the Company Owner, laid the foundation stone of the organization. Right from its establishment, the company proved its mettle in construction material manufacturing and thereby served as a preferred partner for buyers across the nation.

Infrastructural Facility

We have a vast and well-established manufacturing unit which is installed with ultra-modern machines and technology ensuring high efficiency. Apart from this, we have developed a warehousing facility where we keep our entire stock in a safe and secure manner.

Why Us

We are a company trusted in the market for our commitment towards on-time delivery of superior quality products. We feel delighted to cater to the industry's needs with our quality certified product at a reasonable cost. There are certain reasons that make us stand ahead of our competitors:

- Vast infrastructural facilities
- Team of qualified and skilled people
- Timely delivery of the consignment
- Competitive product pricing
- Complete customer satisfaction
- Wide distribution network

Red Bricks

| | | |
|-----------------------|---|--|
| Type | : | Building Material |
| Material | : | Clay |
| Shape | : | Rectangular |
| Application | : | Construction, Partition Walls |
| Form | : | Solid |
| Resistance Durability | : | Fire Resistance, Heat Resistance |
| Note | : | Transportation & GST are not included in price |

Clay Bricks

| | | |
|-------------|---|--|
| Size | : | 12x4inch |
| Material | : | Clay |
| Shape | : | Rectangular |
| Application | : | Construction |
| Color | : | Dark Red |
| Form | : | Solid |
| Weight | : | 2.5 - 3 Kg |
| Note | : | Transportation & GST are not included in price |

Fly Ash Bricks

| | | |
|-----------------------|---|---|
| Application | : | Building Construction |
| Color | : | Grey |
| Main Raw Material | : | Fly Ash |
| Compressive Strength | : | 70-120 kg/cm ² |
| Size | : | 9 In. X 4 In. X 3 In. |
| Resistance Durability | : | Water Resistant, Fire Resistant, Heat Resistant |
| Breakage | : | Less Than 1% |
| Features | : | High Strength, Eco friendly, Faster Construction, Cost effective, Less Wastage. |
| Note | : | Transportation & GST are not included in price |

Cement Bricks

| | | |
|-----------------------|---|--|
| Shape | : | Rectangular |
| Color | : | Grey |
| Form | : | Solid |
| Resistance Durability | : | Heat Resistance |
| Water Absorption | : | 10-12% |
| For Use In | : | Partition Walls, Side Walls |
| Density | : | 300 - 600 kg/m ³ |
| Thickness | : | 3 Inch |
| Note | : | Transportation & GST are not included in price |

AAC Blocks

| | | |
|-----------------------|---|--|
| Material | : | Autoclaved Aerated Concrete |
| Application | : | Roof , Wall and Floor, etc |
| Shape | : | Rectangular |
| Porosity | : | Solid |
| Thermal Conductivity: | | 0.122 W/mK |
| Sound Resistance | : | 37 - 42 dB |
| Fire Resistance | : | 4 - 6 hrs |
| Note | : | Transportation & GST are not included in price |
