

OMEX
POLY PACK

Omex Polypack has come up with huge range with excellent quality of plastic products. Our vision is very futuristic and we stand as a recognized brand in today's competitive corporate world.

About Us

We, Omex Polypack, are one of the renowned manufacturers and suppliers of PP woven Sacks/Bags, FIBC/Big Bag, Multicolour printed BOPP bag, Valve type bags, Liner bags, PP Woven fabrics.

These products are mainly used in several industries like fertilizers, cement, polymers, chemicals, textiles, machinery, automobiles, agriculture, minerals and many others. Our manufacturing process is highly effective and efficient to produce innovative and consistent quality products like woven sacks, FIBC bags, fabric rolls, etc. as per the International quality standards.

Our Eco-Friendly Products

Omex Polypack is the leading exporter and supplier of environmental friendly PP – Polypropylene bags & HDPE woven products worldwide. We export Eco-friendly heavy goods carrier bags. The design could be tailored as well as per the requirement. These bags can be customized in any color of customer's choice. One can use strong, tough, durable & long-lasting PP bags as a replacement of disposable bags. To add to its benefits this PP bags are recyclable too.

Customized Products

We provide assistance to our customers to get customization of the PP Bags produced by us. These personalized sacks and bags are created according to the requirements of sizes and graphics provided by our clients. This customized designs helps in marketing for the customer's brand name as well. We also feature Client's Company logo on the luggage or else we make a personalized PP bag that meet their requirements. We can produce the specified measurements in any color that consumer selects for the shopping or marketing bag.

Vision

Our Vision is to Focus towards the futures. Our efforts are to make Omex incompatible, undoubtedly and each & every step will increase the entire development of it. We believe in establishing world class manufacturing set up equipped with latest technology which allows producing & maintaining a swift rate of production.

Mission

We are morally committed to provide quality products which are the best in packaging industry. With setting milestones of success and innovation, Omex will be widely known for efficiency in work and supply, delivering significant services around the world with most competitive price.
