Established in 1983, Trident Engineering has built a strong reputation as a trusted Manufacturer, Exporter, Supplier, and Service Provider of high-performance industrial coatings, paints, primers, waterproofing systems and protective chemical products. Founded by Mr. Jay Mehta, the company has consistently focused on delivering reliable and innovative solutions for diverse industrial and commercial applications.

With decades of expertise, Trident Engineering offers a comprehensive product portfolio including Metal Primers, Epoxy Primers, PU Coatings, Road Marking Paints, Marine Coatings, Fire Protection Coatings, Waterproofing Products, Concrete Repair Chemicals, and Industrial Protective Coatings. Our products are designed to provide superior durability, corrosion resistance, weather protection, and long-lasting performance in challenging environments.

We cater to industries such as Infrastructure, Construction, Marine, Oil & Gas, Transportation, Warehousing, and Commercial Projects, ensuring customized solutions based on specific client requirements. Our advanced manufacturing processes, quality control systems, and commitment to industry standards enable us to maintain consistent product excellence.

At Trident Engineering, customer satisfaction remains our highest priority. We believe in building long-term relationships through quality products, timely delivery, technical support, and competitive pricing. Our experienced team works closely with clients to recommend the most effective coating and protection systems for every project.
