Aaru Life Science Private Limited has achieved commercial success by manufacturing a wonderful range of Cleaning Essentials such as Dr Home Detergent Powder, Liquid Cleaner, Detergent Cakes, Urinal Cubes, and many others. We are a well-known and trustworthy organisation that was founded in 2021 in Kheda, Gujarat. Our goods are prepared following industry standards and tested to assure their high quality.

Our Mission

- To maintain a "zero tolerance" attitude to product quality and uniformity.
- To produce products that are comparable in both quality and pricing when compared to worldwide competitors.
- Through excellent distribution networks, supply cleaning products to every nook and cranny of the country.
- To develop a product range that functions flawlessly in a variety of washing circumstances.

Our Team

We are supported by a skilled team of professionals with extensive business knowledge and industry expertise. Our specialists collaborate and are devoted to the organisation's success. We have established ourselves among the leading brands in this industry due to the excitement and devotion of our employees.

Our story:

Mr Mehul Shah was founded by two friends who had become dissatisfied with the lack of availability of eco-friendly and sustainable products in the average store. We took it upon ourselves to source the highest quality goods which were made with sustainable materials and production practices and have a low impact on the environment.

Our ultimate goal is to be able to replace traditional retail with an affordable and sustainable alternative for every product which you might need in a 21st-century lifestyle. We're not there yet, but we're proud of the options we already offer our customers. Take a look at our products, and if you have any questions, please feel free to get in touch. Let's be the change.
