

*Manufacturer,
Supplier, Exporter*

DPA Meditech Private Limited was founded in the colourful Indian cultural tapestry of Ambala, Haryana. Our mission was to use the age-old wisdom of Ayurveda, and that was how our adventure started. Founded by a group of enthusiastic people, our goal is to use nature's gifts to promote well-being.

The Fundamentals of Ayurveda

Ayurveda is a way of life, not merely a tradition. At DPA Meditech, we respect this ancient science by fusing innovation with history. Every product we make is a carefully crafted, body-nourishing testament to the efficacy of Ayurveda. We provide a comprehensive approach to wellbeing, ranging from vital skincare products to herbal supplements.

Quality Assurance

Our trademark is quality. Every stage of the process, from finding the best herbs to creating the finished product, is done with care and accuracy. Every batch of our cutting-edge production facilities is guaranteed to be pure and potent since they comply with strict quality requirements. We are dedicated to providing high-quality items that build confidence.

Empowering Wellness

Beyond commerce, our goal is to strengthen communities. We want to return something positive to the earth that supports us through sustainable practices. We contribute to a healthier world by encouraging eco-friendly projects and helping regional farmers. At DPA Meditech, we think that harmony—both inside and with the environment—is the foundation of real well-being.
