

SHREE PRARAMBHA SMART ENERGIES

INTRODUCTION

M/s Shree Prarambha SmartEnergies Pvt Ltd (SPSE)

SPSE is a professionally managed organization engaged in providing end-to-end Solar Installation & Commissioning (I&C) and associated infrastructure works for utility scale, commercial, and industrial solar projects across India. We operate as a reliable execution partner to EPC contractors, developers, and infrastructure companies, with a strong focus on speed, quality, and safety compliance.

Core Capabilities

We offer comprehensive on-site execution services covering the complete solar project lifecycle, including:

- Solar Installation & Commissioning (I&C) – DC and AC side works
- Module Mounting Structure (MMS) installation – fixed tilt and tracker systems
- Piling works – auger, hydraulic, and manual piling based on soil conditions
- Transformer erection, testing, and commissioning
- HT/LT transmission line works, cabling, terminations, and charging
- Coordination with EPC teams for smooth inspection and handover

Execution Strength

Our primary strength lies in our skilled, trained, and scalable manpower, comprising experienced site engineers, supervisors, safety personnel, and technicians. The team is well-versed with EPC quality benchmarks, statutory safety norms, and tight project schedules. We are capable of quick mobilization and executing high-volume works without compromising workmanship or timelines.

Quality, Safety & Compliance

SPSE follows structured work practices with emphasis on:

- Adherence to approved drawings, BOQs, and method statements
- Strict EHS and site safety compliance
- Proper documentation, daily progress reporting, and snag closure
- Coordination for inspections, testing, and commissioning

Why SPSE

- Proven capability in time-bound execution
- Cost-effective and deployment-ready teams
- Experience working under EPC and subcontracting models
- Focus on long-term association rather than one-time execution

We aim to support our clients in accelerating project completion, minimizing execution risk, and ensuring smooth commissioning and handover.

SHREE PRARAMBHA SMARTENERGIES (SPSE) - INNOVATING FOR A SUSTAINABLE TOMORROW

Welcome to Shree Prarambha Smartenergies (SPSE), your gateway to the future of sustainable technology. At SPSE, we pride ourselves on delivering innovative, eco-friendly solutions that transform everyday living. Join us in our journey towards a sustainable tomorrow.

OUR PRODUCT RANGE:

POWER SOLUTION

- UPS
- All Type Industrial Batteries (NICD / VRLA / SMF / TUBULAR)
- Li-ion Batteries
- Battery Charger
- Supercapacitor - HI Current Module

Telecom

ELECTRIC VEHICLE

- ESOTY / EBIKE
- ELODER (2 Wheeler / 3 Wheeler)
- ETEMPO
- EV Charging Station

Aviation

Power Utilities

Green Energy / Smart Energy Innovation

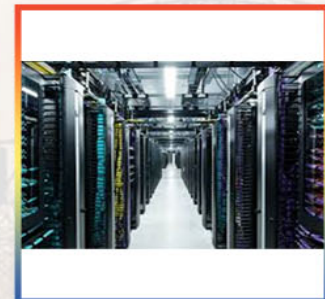

- AC Power Saver
- Solar Power Plant
- Solar Inverter
- Air Purifier
- Smart Switch / Automation

AC & DC Charging Station

Renewable Energy

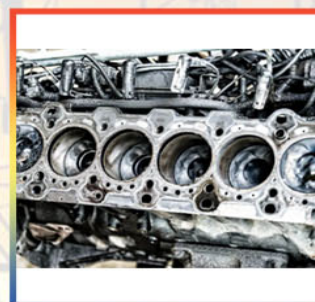

Data Center

Industries / Areas shown:

- Telecom
- Aviation
- Power Utilities
- AC & DC Charging Station
- Renewable Energy
- Data Center
- Oil & Gas
- Engine Cracking
- Railway

Oil & Gas

Engine Cracking

EEMPO

DIVERSE PRODUCT RANGE FOR SUSTAINABLE LIVING

SOLAR WATER PUMPS

Harness the power of the sun to pump water sustainably with SPSE's solar water pumps. Ideal for agricultural, residential, and commercial applications, our pumps provide reliable water supply while minimizing energy costs and environmental impact. With SPSE, enjoy clean, renewable water solutions that work for you and the planet.

Transform sunlight into clean, renewable energy with SPSE's solar power plants. Custom-designed to meet your energy needs, our solar plants offer sustainable solutions for residential, commercial, and utility-scale applications. With SPSE, harness the power of the sun to reduce your carbon footprint and energy costs.

SOLAR POWERPLANTS

DIVERSE PRODUCT RANGE FOR SUSTAINABLE LIVING

UNINTERRUPTIBLE POWER SUPPLIES (UPS)

Never worry about power outages again with SPSE's reliable UPS solutions. Keep your essential electronics running smoothly, even during unexpected blackouts, with our robust and efficient UPS systems. With SPSE, stay powered up and protected, no matter what.

Power your industrial operations with confidence using SPSE's industrial batteries. Designed for durability and reliability, our batteries deliver consistent performance in demanding environments. From warehouses to manufacturing facilities, trust SPSE for industrial batteries that keep your operations running smoothly.

INDUSTRIAL BATTERIES

DIVERSE PRODUCT RANGE FOR SUSTAINABLE LIVING

LITHIUM BATTERIES

Power your devices with confidence using SPSE' high-performance lithium batteries. Lightweight, long-lasting, and eco-friendly, our batteries deliver reliable energy storage for a wide range of applications. Whether you're powering up your smartphone or storing energy for solar panels, trust SPSE for lithium batteries that go the extra mile.

BATTERY ENERGY STORAGE SYSTEM

In a battery energy storage system, the fundamental components are the battery blocks, but there are also other elements: an inverter, which converts the direct current from the batteries into the alternating current of the electricity grid (and vice versa); a transformer, which adapts the system's voltage to that of the grid; and finally, auxiliary systems (in particular cooling and fire protection).

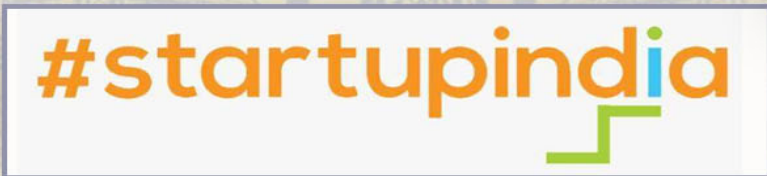

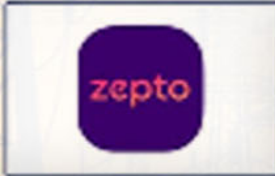

SAFT KPL KPM KPH Ni-Cd Batteries

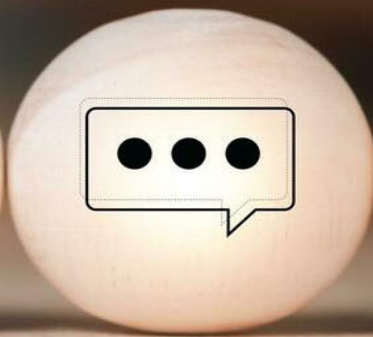

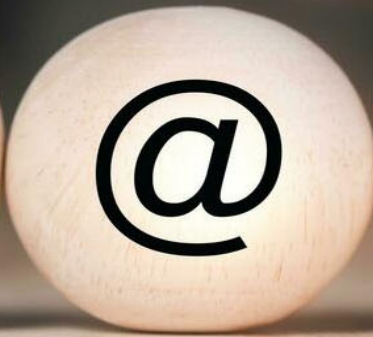

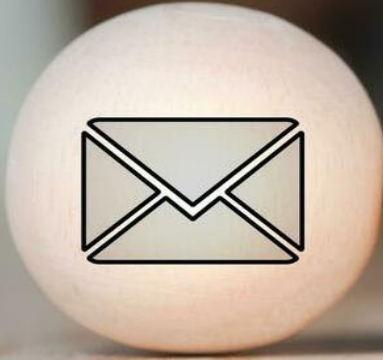

Saft Urja KPL, KPM, KPH nickel batteries offer a wide range of low, medium and high discharge rates and capacities. They boast a flexible solution for all types of industrial applications. KPL, KPM, KPH vented pocket plate nickel batteries are IEC 60623 and IS 10918 certified and available in translucent polypropylene cases.
