# ABOUT US

We deliver precision quality fasteners, mainly from alloy steels and stainless steels but also from brass, aluminum, copper, titanium and other special materials. We ensure supplies conforming to all recognized national and international standards like IS, DIN, ISO, BS, ANSI/IFI, ASTM, JIS, AS or specific custom made fasteners, in sizes from M2 to M64 ( 5/64 inch to 2-1/2 inch ) diameter and length up to 500mm ( 20 inch ) by forging and up to 3meters by machining.

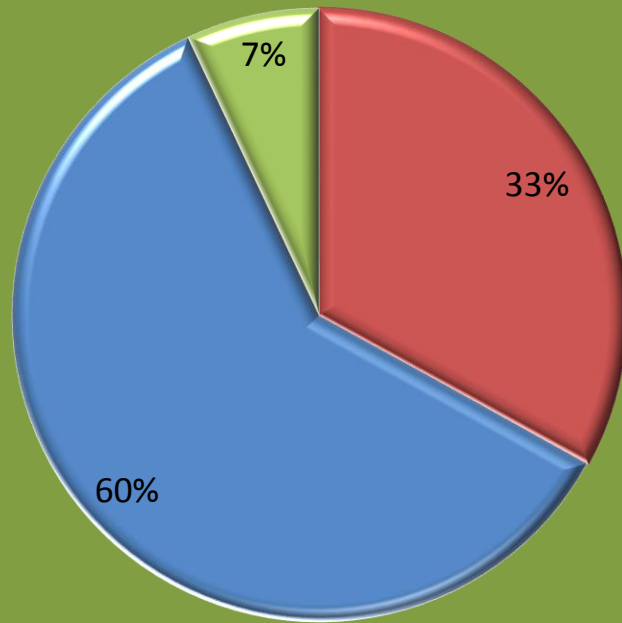

Our major strength in manufacturing are special machined or turned components from bar stock or products which secondary operations like turning, grinding, milling, drilling, reaming, boring, slotting, broaching etc after hot or cold forging. Small batches of production or prototype sample can be accommodated and every order is fulfilled with utmost care and attention.
