Sri Gokulam Hydraulics

Ever since our opening as the leading manufacturer and supplier of agro-machinery in 2016, we at Gokulam Hydraulics take pride in being consistent in delivering a premium range of products. A Coimbatore-based business, it has always been our vision to stay at the forefront of providing innovative, durable, environmentally sustainable and user-friendly machinery like the coir pith black machine, and grow bag making machine.

Our company provides premier agricultural machinery to countries beyond India including Kenya, the Philippines, Kenya and Sri Lanka. To surpass client expectations, we always go the extra mile and put in our best efforts to dole out the best products that excel in quality, robust design, performance, specifications and cost-effectiveness. We source raw materials from all the top vendors in the country for precision makes.

High-Performing and Eco-Friendly Agro Machinery Manufacturer

All our products are in high demand for various agricultural fields while preparing the land for harvests. We deploy our quality personnel at every stage of our manufacturing procedures to ensure they adhere to industry-laid quality standards. Additionally, our highly-efficient R&D team conducts multiple surveys to improve the machinery's performance.

The sophisticated infrastructure we maintain is backed with modern machinery and technology. Also, our spacious premises helps us to cater to diversified and bulk orders from clients. Our team is in constant touch with our client base through responsive communication. To understand about our machinery and to know how to buy them in bulk, talk to us.
