Advaith Technology was established in the year 2019 in Gujarat, India. We are a trusted manufacturer and supplier of spiral wound gaskets, rubber gaskets and a lot more. We offer comprehensive sealing solutions for industries across the globe. We manufacture standard sealing products as well as customized solutions as per specific industry demands. Our sealants are engineered specially to meet your component design, operating needs and material specifications to ensure efficiency, safety and economy.

The company is founded on the strong pillars of experience, innovation and technology with years of industry experience. Our core strength is our team of experienced, skilled and dedicated executives. In recognition of our team's strengths, we invest in them and keep their knowledge updated and upgraded through regular workshops, seminars and development programs. Following our superior products and unequalled service, we have managed to enjoy 100% repeat business as well as add new clients over the years.

### **Our Mission**

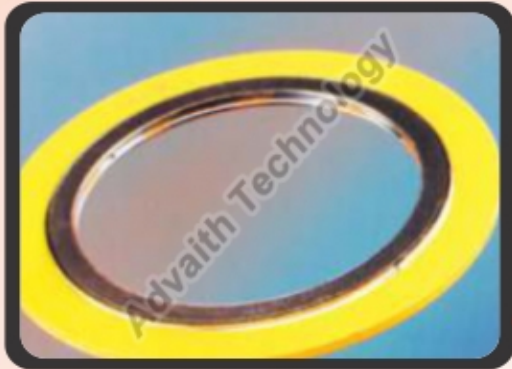

Our mission is to manufacture and supply premier quality sealing solutions and unparalleled services to our clients. We aspire to help our clients enhance their efficiency by supplying the best quality products at the most competitive prices.

### **Why Choose Us?**

We have been in this industry for years and provide products that are high quality. These are tested at every stage to ensure it meets the needs of our customers. Order now.
