METAL DETECTORS

DAS ELECTRONICS

RELIABLE METAL DETECTION SOLUTIONS

About us

Das Electronics is a dynamic organization renowned as one of the most prominent Metal Detector Manufacturers in Mumbai. The company is ranked among the most distinguished Metal Detector Suppliers & Exporters. Our Industrial Metal Detectors are widely used in various industries like Food & Beverages, Pharmaceuticals, Garments, Plastic Processing, Packaging industries and other industrial organizations. Our range of products includes Metal Detectors, Metal Detection System and Tablet Deduster. Our assorted variety of our Metal Detectors includes Needle Detector, Bag Metal Detector, Capsule Metal Detector, Confectionery Metal Detector, Dari Metal Detector, Garments Metal Detector, Grain Metal Detector, Tablet metal detector and so on. Our Metal Detector is known for reliable usage, and apart from supplying in India, we also export them to various countries of the world.

We have secured a reputable position in the market and that is the result of our constant hard work and total dedication towards the business. We have been growing at a fast rate and have established ourselves as one of the major organizations in the market. We enjoy the complete faith of our clients and keep making new entries in our clientele. Working with a client centric approach, we deliver absolute customer satisfaction to our clients.

In the past ten years since our establishment, we have successfully managed to position ourselves as one of the best Metal Detector Manufacturers In India and Industrial Metal Detector Exporters. Our technical expertise and focus on delivering only the best of products has earned us the trust and respect of clients all across the world. Our name also features among the reliable Metal Detector Suppliers in Mumbai owing to our excellent track record in providing top quality metal detectors at the most competitive rates in the market.

Our Products

Mumbai (Maharashtra)-based Das Electronics is engaged in manufacturing, exporting and supplying high-performance Metal Detectors. Our Jumbo Bag Metal Detector Candy Metal Detector, Dry Fruit Metal Detector, Frozen Seafood Metal Detector, HACCP & ISO Certification Metal Detector, Healthcare Product Metal Detector, Home Furnishing Metal Detector, Online Bag Metal Detector and several other Metal Detectors are manufactured using innovative technology and high-grade components. Manufactured using high quality MS, SS and Aluminum, our Metal Detectors comply with high international standards. With their reliable metal detection performance and long service life, our products have garnered high appreciation from the clients. We provide the Metal Detectors in diverse customized models to suit the requirements of the clients.

Metal Detector

SPECIFICATIONS :

- Model-AMD/FMD/FAMD/AUTO FAMD—Analog and Digital
- Aperature Size - Tailor Made.
- Sensitivity (Typical) for 100 mm height - 0.5 mm Dia.
- Alarm - Audio - Visual Alarm on detection.
- Power Supply 230 VAC +/-5%, 50 HZ.
- Power belt speed - 25 to 30 Mtr./Miinuts.
- Counter - Optional
- Weight 80 to 250 kgs.
- CE Mark

APPLICATION

- Food Processing.
- Packing Industries.
- Garment Industries
- Rubber and plastic processing
- Bottling Units, Sea Food And Meat Industries
- Gravity feed-for powder and graduals.

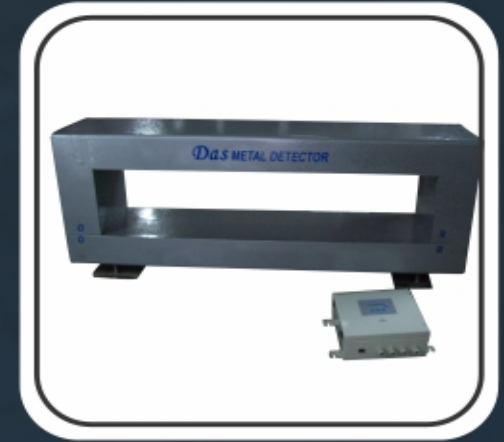

Our Products

Industrial Metal Detector :

We are a reliable name for availing excellent quality Industrial Metal Detector. It is manufactured using high-quality components and sophisticated technology. Industrial Metal Detector finds application in various industries like pharmaceutical, chemical, food, cement, coal industry, mining, plastic, rubber, and textile industry. Reliable performance, high sensitivity, long lasting life, etc. are some of the many appreciated features of our Industrial Metal Detector.

FEATURES :

- All Metal Detection (Ferrous, Non-Ferrous and Stainless Steel)
- Automatic balancing
- Very high and adjustable sensitivity
- Very high reliability
- Automatic adjusts to temperature variations
- Low power consumption
- Audio-Visual indication to draw the attention of the operator
- Offers potential free change over contacts for interlocking
- Can couple sand bag marker and external hooter to the system
- Plug in types of cards for easy and quick maintainance
- Control Unit with IP55/IP65 protection
- Additional potential free contact can be provided

APPLICATIONS :

These types of metal detectors offers very high sensitivity and useful in Coal Handling Plants, Paper Mills, Thermal Power Plants, Cement industries and Lime stones.

Our Products

Ferrous In Foil Metal Detector

We are an eminent Ferrous In Metal Detector Manufacturer, Exporter and Supplier of Frozen Seafood Metal Detector from India. Our experienced engineers design Frozen Seafood Metal Detector for detecting variety of ferrous and non-ferrous metals in sea food. The detector comes with automatic reject mechanism for rejecting the contaminated products on instant detection of metals. Featuring sturdy construction, our Frozen Seafood Metal Detector ensures efficient performance for long run. We make available Frozen Seafood Metal Detector in different specifications.

- Detects ferrous metal in metallised (Aluminium) film packaging.
- Ideal for Food processing (Ready to eat), Dairy, Packaging Industries, Spices Industries.

FEATURES :

- Model-FMD (Ferrous Metal Detection)—Detects Ferrous metal in metallised (aluminium) film packaging
- Customised (Tailor made) aperture sizes are available
- Very high sensitivity
- Audio and visual indication on metal detection
- Product effect compensation
- Automatic balancing
- Dual channel operations
- Pneumatic flap, Air jet, diverter arm, belt retracting, belt stop types of reject mechanism as per applications
- MOC- SS and MS available
- Ip65 control panels are available
- Comprehensive manual with validated test calibration kits with certificates for validation test

APPLICATIONS (I) :

Ideal for Food processing Units, Dairy, Spices, Garments and Home furnishing

Our Products

Food Metal Detector

We are actively engaged in providing high-quality Food Grade Metal Detector to clients. It is manufactured using supreme quality basic material by our professionals. Our Food Grade Metal Detector comes with audio and visual indication. We provide it in diverse models to suit the varied requirements of clients. Food Grade Metal Detector is ideal for food processing industries, dairy industries, packaging industries, spice industries, and fruit, jam, pickle, and sauce manufacturers.

Highlights

- Customised (Tailor made) aperture sizes are available
- Very high sensitivity
- According to HACCP, GMP and FDA standard
- Audio and visual indication on metal detection
- Product effect compensation
- Different models are available according to application
- Model-AMD (All Metal Detection)-Detects Ferrous, Non Ferrous and stainless steel
- Model-FMD (Ferrous Metal Detection)- Detects Ferrous metal in metallised (aluminium) film packaging
- Model-FAMD-combination of above two (AMD+FMD) models
- Automatic balancing
- Dual channel operations
- Pneumatic flap, Air jet, diverter arm, belt retracting, belt stop types of reject mechanism as per applications
- MOC- SS and MS available
- Ip65 control panels are available
- Comprehensive manual with validated test calibration kits with certificates for validation test

Our Products

Needle Detector :

Matching with the needs of patrons, we offer an exemplary gamut of Needle Detector. It is manufactured using mild steel and cutting-edge technology. Our Needle Detector promises high detection efficiency and a long functional life. Owing to such qualities, it is highly demanded in garment and textile industries. Needle Detector is available with us at industry leading prices.

Specialties

- Very high sensitivity
- Audio and visual indication on needle detection
- Automatic balancing
- Dual channel operations
- Made of mild
- Longer functional life
- CE Mark

Available Needle Detectors

Model: AMD (All Metal Detection)

Detects Ferrous, Non-Ferrous and Stainless Steel

Model: FMD (Ferrous Metal Detection)

Detects Needle in metallised

(Aluminium/ Copper) Zipper used Garments

Model: FAMD (AMD+FMD)

Combination of above AMD and FMD models

Our Products

Tablet Metal Detector :

We are actively engaged in providing high quality Tablet Metal Detector to the clients. Our products is the result of the sophisticated technology and high grade material that we put in for its manufacturing. Ensuring excellent performance and high durability. Tablet Metal Detector, Pharma Tablet Metal Detector is widely acclaimed by the clients. Securing the best for the clients.

Highlight

- Full construction compliant with CGMPs will be made of SS 304 and the part which comes in to contact of the product will be SS 316
- The non- metallic parts will be made of Food Grad materials
- Reject mechanism will be De-attachable type and it can be wash with water
- In the reject mechanism will be used 24VDC, 100 % duty cycle
- Very high through output- 5000 to 7000 Tablet /Capsule per minute depend on the size shape
- Very easy to height adjustment
- The input height can be varies ease to install at de-duster machine
- The system can be rotate 360° at place
- Reject Bin will be attached with system
- 4X20 character LCD display with back light
- Audio and visual indication on metal detection
- Indigenously developed customized software to provide up to date record for all product a for validation of machine
- The System will have 100 products memory. It can be set 00-99.
- 3 level of security code i.e General mode, Supervisor mode, Administration mode
- Sensitivity and other parameter can be set by touch key pad
- Product effect compensation
- Auto validation facility available
- Food grad non-metallic white chute having authentication certificate designed such way that easily can be cleaned
- Comprehensive manual with DQ/IQ/OQ/PQ and validated test calibration kits with certificates for validation test
- CE Mark

Our Products

Gravity Feed Metal Detector :

We are actively engaged in providing high-quality Gravity Feed Metal Detector to clients. It is made using sophisticated technology and high-grade raw material. Gravity Feed Metal Detector gives excellent performance and has a long functional life. Moreover, it requires low maintenance and promises high efficiency. Gravity Feed Metal Detector is ideal for powder, granules, grains, pulses, spices, etc.

Attributes

- Customized (Tailor made) aperture sizes are available
- Very high sensitivity
- According to HACCP, GMP and FDA standard
- Audio and visual indication on metal detection
- Product effect compensation
- Different models are available according to application
- Detects Ferrous, Non-Ferrous and stainless steel
- Automatic balancing
- Dual channel operations
- Cow bell type and diverter flap types of reject mechanism as per applications
- MOC- SS and MS available
- Ip65 control panels are available
- Comprehensive manual with validated test calibration kits with certificates for validation test

Our Products

Bag Metal Detector

We have created a strong foothold in the business of manufacturing, exporting and supplying Bag Metal Detectors of world class quality. We occupy a high position in the list of topmost Jumbo Bag Metal Detector Manufacturers In Thane. As the name suggests, the Bag Metal Detector available with us is widely used to detect the presence of metals in bags. Made using innovative technologies and good quality raw materials, our Metal Detecting Carrying Bags are very durable and reliable at the same time. Further, these Bag Metal Detectors are ideal for PP Jumbo Bags. We also deal in Bag Metal Detectors with customized (Tailor made) aperture sizes, in order to suit varied requirements of the clients. We are considered prominent Metal Detector Suppliers in the industry.

Capsule Metal Detector

If you are looking for the best Pharmaceutical Metal Detectors Exporters in India, then Das Electronics is a name for you. The company is counted among the major Capsule Metal Detector Manufacturers, Exporters and Suppliers in India. Designed for excellent performance, the Capsule Metal Detector, provided by the company, is used for detecting metals at varied locations. Our Tablet Metal Detector is indigenously developed and features customized software to provide up-to-date record for all products and for validation of machine.

Confectionery Metal Detector

Our Confectionery Metal Detectors have high processing power which means that they can detect contaminants in the feed with high speed and total accuracy. They are also easy to use which means that the operators require minimum training before handling the detectors. Offering optimum sensitivity, the Confectionery Metal Detectors offered by us can be integrated with a wide variety of conveyor belt systems. Owing to the superior range of metal detectors that we offer, our name is listed among the top Conveyor Metal Detector Suppliers in India.

Our Products

Dari Metal Detector

Das Electronics has made a prominent mark for itself in the field of designing and producing the cutting-edge range of Metal Detectors. Therefore, the company is primarily engaged in the manufacturing, exporting and supplying of the world-class Dari Metal Detectors in all over the world. We are counted amongst trusted Dari Metal Detector Exporters. Dari Metal Detectors, offered by us, are extensively used for detecting metal presence in home furnishing items such as dari and so on. Designed to perfection, our Metal Detector Systems have some advanced features that have never been seen before in any other metal detector available in the market.

Garments Metal Detector

Das Electronics is a one-stop destination to avail the highly efficient range of Metal Detectors For Garment in India. The company is ranked amongst one of the prime Manufacturers, Exporters and Suppliers of Garments Metal Detector, based in India. The Metal Detectors that we offer are required for metal detecting operation for products like garments, home furnishing items, etc. These detectors strictly meet all the quality standards of HACCP, GMP and FDA, which is one of their major attributes.

Grain Metal Detector

We are proud to introduce ourselves as one of the most promising Manufacturers, Exporters and Suppliers of Grain Metal Detector in India. We manufacture sophisticated Metal Detector For Food Suppliers in India. As the name suggests, the Grain Metal Detector or the Food Metal Detector is ideal for detecting metallic particulates in Dry- fruits, Grains, Peanuts, etc. Metal Detector Machines provided by us are designed and developed using premium grade raw materials and electronic instruments.

Our Products

Pharma Metal Detector

We are the name to reckon with for the finest range of Pharma Metal Detectors. Our name figures in the list of topmost Capsule Metal Detector Suppliers in India. The Pharma Tablet Metal Detector available with us is used for Tablet and Capsule metal inspection. Our Pharma Metal Detector is indigenously developed customized software to provide up to date record for all product and for validation of machine. Made available in varied specifications, this Pharma Metal Detector is very affordable. Not just Pharma Metal Detector, we also offer Capsule Metal Detector that is considered best in terms of quality as well as durability.

Pipeline Metal Detector

We have excelled in the business of manufacturing, exporting and supplying Pipeline Metal Detectors. Fabricated using premium grade raw materials and electronic components, the Pipeline Metal Detector available with us is surely the right choice to rely upon. Our Pipeline Type Metal Detector is suitable for detecting Confectionary items, Pulps, and Ketchup. This Pipeline Metal Detector has high sensitivity to detect Ferrous metals, Non-Ferrous metals and stainless steel. We offer this Pipeline Metal Detector in varied specifications, that too at budget friendly prices. This makes us one of the trusted Metal Detectors Exporter in the industry.

Our Products

Spices Metal Detector

Catering to varied requirements, we offer this precisely designed Spices Metal Detector. This Metal Detector For Spices is widely used for detecting metallic content in different types of spices. Designed by experts, this Spices Metal Detector provided by us is exceptionally reliable and durable. We make use of good quality raw materials and latest electronic components for manufacturing the Spices Metal Detector. As a result, this Spices Metal Detector is the best choice available in the market. We are regarded as one of the most reliable Metal Detector Suppliers In India.

Missing Sachet Detector

Are you searching for the most reliable Missing Sachet Detector Manufacturers in India? If yes, then Das Electronics is your ultimate destination. It is counted amidst the chief Manufacturers, Exporters and Suppliers of Sachet Detectors from Maharashtra, India. The company can design and develop this equipment as per the specifications provided by the clients.

Needle Detector Machine

In order to deliver absolutely flawless textile consignments to the customers, the textile companies need a perfect Metal Detector to detect needles from the products. Keeping this in mind, Das Electronics has come up with an efficient assortment of Needle Detectors, which can also be customized upon clients' requests. We are known as one of the leading Needle Detector Manufacturers, Exporters and Suppliers from India.

Our Products

Bottle Line Metal Detector

A little piece of metal in a food product can not only affect the health of a person but can also ruin the reputation of your company among your customers. Understanding the importance of Metal Detectors in this competitive industry, Das Electronics brings forth the best range of Food Metal Detectors for the clients worldwide.

Bakery Products Metal Detector

Bakery Products Metal Detector is used for detecting a variety of metals and related contamination in cakes, bread, biscuits and cookies. We are named among the renowned Manufacturers, Exporters and Suppliers of Bakery Products Metal Detector. It is manufactured using food grade material the latest techniques under the supervision of experts. We make available Bakery Products Metal Detector in different sizes that easily meet varied requirements of the buyers.

Checkweigher Metal Detector

Checkweigher Metal Detector that we offer is well tested and therefore, is the perfect option on which buyers can easily rely. We are enlisted among the reputed Manufacturers, Exporters and Suppliers of Checkweigher Metal Detector. It is manufactured using HACCP, GMP and FDA standards that ensure its quality. We conduct stringent quality tests on Checkweigher Metal Detector so as to ensure that only the defect-free product reaches the customers' end.

Our Products

Conveyorised Metal Detector

Our company is an eminent name, which is counted among the top Manufacturers, Exporters and Suppliers of Conveyorised Metal Detector. We have a well-equipped production unit that enables us to produce Conveyorized Metal Detector in bulk at a time. Sturdy construction, longer functional life and durability are some of the attributes that make our Conveyorised Metal Detector highly popular. It can be obtained from us in small as well as bulk quantities.

Dairy Products Metal Detector

Dairy Products Metal Detector finds wide usage in dairy industries to detect metal contamination in cheese, paneer, milk powder, ice-cream etc. We are counted among the top Manufacturers, Exporters and Suppliers of Dairy Products Metal Detector. The manufacturing and testing of our Dairy Products Metal Detector are done using the latest techniques so as to eliminate each and every possibility of defect from it.

Electronic Metal Detector

Analog and digital Electronic Metal Detectors are available with us! Our Electronic Metal Detector is perfect to be used in various industries like food and beverages, pharmaceuticals, garments, plastic processing, packaging etc. We are listed among the top Manufacturers, Exporters and Suppliers of Electronic Metal Detector. We are able to produce Electronic Metal Detector in bulk at a time with the support of our well-equipped production unit.

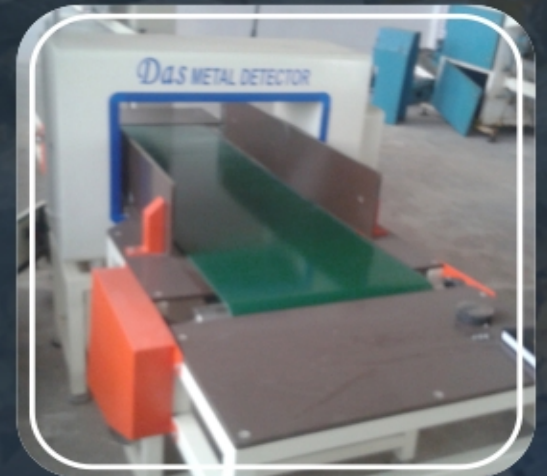

Our Products

Ferrous Metal Detector

Ferrous Metal Detector that we offer is manufactured using quality approved basic material and the latest techniques under the observation of experts. It is subjected to stringent quality tests so as to ensure that only the defect-free product reaches the customers' end. When it comes to delivery, we make all arrangements for quick shipment of Ferrous Metal Detector. Obtain from us, small as well as bulk quantities of Ferrous Metal Detector at the most reasonable prices.

Foil Metal Detector

We make available Foil Metal Detector in different specifications so as to cater to variegated requirements of the buyers. We are counted among the top companies, which are engaged in manufacturing, exporting and supplying Foil Metal Detector. Manufactured under the observation of experts, our Foil Metal Detector is known for its longer functional life. One can place retail as well as bulk orders for Foil Metal Detector with us.

Our Products

Online Metal Detector

Online Metal Detector that we offer can detect ferrous metals, non-ferrous metals and stainless steel. It facilitates automatic balancing and supports dual channel operations. It is specially designed for online application in production line. We are one of the prominent Manufacturers, Exporters and Suppliers of Online Metal Detector. We have the capability to deliver retail as well as bulk orders for Online Metal Detector on time.

Pickle Metal Detector

Pickle Metal Detector that we offer is manufactured using high-grade components and highly advanced techniques that ensure its quality and durability. We are one of the leading Manufacturers, Exporters and Suppliers of Pickle Metal Detector. We are efficient to process retail as well as bulk orders for Pickle Metal Detector even at short notice period. IT can be obtained from us at a very reasonable price.

Our Products

Pulse Induction Metal Detector

Pulse Induction Metal Detector, offered by us, is manufactured and tested using the latest techniques. The best thing about our Pulse Induction Metal Detector is that it is free from all kinds of defects. Thus, it is the perfect option on which buyers can easily rely. We are one of the prominent Manufacturers, Exporters and Suppliers of Pulse Induction Metal Detector. It can be obtained from us in small as well as bulk quantities.

Snacks Metal Detector

Snacks Metal Detector is specifically designed for detecting the presence of metals in snacks and sweet. It is available in different sizes that easily meet the varied demands of the buyers. BY bringing forth such a wide range of Snacks Metal Detector, we have become the sought after Manufacturer, Exporter and Supplier of Snacks Metal Detector. Obtain from us, Snacks Metal Detector in small as well as bulk quantities.

Features :

- Made using quality food grade material
- Sturdy construction
- Longer functional life
- Available in different sizes
- Low cost

Our Products

Stainless Steel Metal Detector

Stainless Steel Metal Detector is specially used in various food, pharmaceutical, chemical and many other industries. We make available Stainless Steel Metal Detector in different types such as Tablet metal detector, Capsule metal detector, Gravity feed metal detector, Online metal detector, Metal detector for pickle etc. We are one of the trusted Manufacturers, Exporters and Suppliers of Stainless Steel Metal Detector. Obtain from us, the detector at a very reasonable price.

Textile Industry Metal Detector

Textile Industry Metal Detector that we offer has longer life span and produces accurate results. The name of our company surfaces prominently among the trusted Manufacturers, Exporters and Suppliers of Textile Industry Metal Detector. We manufacture Textile Industry Metal Detector under the strict vigilance of experts. We test the detector on various quality parameters in order to ensure its smooth functioning. It can be obtained from us at the best market price.

Our Products

Frozen Food Industry Metal Detector

Frozen Food Industry Metal Detector is designed for detecting the presence of metals in meat, fish and fruits and vegetable. It is made available in different sizes to suit varied requirements of the buyers. We are named among the renowned Manufacturers, Exporters and Suppliers of Frozen Food Industry Metal Detector. We manufacture and test the detector under the supervision of experts. It can be obtained from us at a very reasonable price.

HACCP ISO and FDA Certification Metal Detector

HACCP ISO and FDA Certification Metal Detector that we offer is manufactured by employing highly advanced techniques. We are enlisted among the reputed Manufacturers, Exporters and Suppliers of HACCP ISO and FDA Certification Metal Detector. We conduct stringent quality tests on the detector prior to its final dispatch. Buyers prefer to buy the detector from us as we make it available at a very reasonable price.

Our Products

Healthcare Products Metal Detector

We come up with Healthcare Products Metal Detector that is well tested and is known for its longer functional life and sturdy construction. We are listed among the top Manufacturers, Exporters and Suppliers of Healthcare Products Metal Detector. With the support of our well-equipped production unit, we are able to produce Metal Detector in bulk at a time. When it comes to delivery, we use those shipment modes that ensure its timely and prompt delivery.

Laminates and Wood Metal Detector

Laminates and Wood Metal Detector that we offer is manufactured using mild steel that ensures optimum performance for a longer period. The best thing about our Metal Detector is that it can detect even the small pieces of metal. It provides audio and visual indication while detecting metal sachet. It is perfect for various industries like laminating, plywood manufacturing industries and other industrial organizations.

Our Products

Plastic Metal Detector

Plastic Metal Detector detects metal contamination in plastic and vinyl products. We are counted among the top Manufacturers, Exporters and Suppliers of Plastic Metal Detector. It is manufactured using highly advanced technology keeping in mind the set industry standards. Various stringent quality tests are conducted on Plastic Metal Detector that ensures its defect-free mechanism. It can be obtained from us in small as well as bulk quantities.

Dry Fruits Metal Detector

Dry Fruits Metal Detector, offered by us, provides accurate results and is gaining high popularity due to its defect-free mechanism. We are one of the prominent Manufacturers, Exporters and Suppliers of Dry Fruits Metal Detector. It is manufactured and tested using the latest techniques under the strict vigilance of experts. It is supplied to the clients' end only after the completion of stringent testing procedures.

Our Products

Free Fall Metal Detector

Free Fall Metal Detector that we offer is tested using the latest techniques so as to remove all kinds of defects in one go. Our company is an eminent name, which is counted among the top Manufacturers, Exporters and Suppliers of Free Fall Metal Detector. The manufacturing of our Free Fall Metal Detector is done by following the set industry standards. Obtain from us, the detector at the best market price.

Tablet Deduster

Tablet Deduster that we offer is manufactured and tested following international quality standards. We are listed among the top Manufacturers, Exporters and Suppliers of Tablet Deduster. Sturdy construction and durability are some of the attributes that make our Tablet Deduster highly popular. When it comes to delivery, we always deliver Tablet Deduster on time that makes us stand tall among our competitors. It can be obtained from us at the best market price.

Metal Detection System

Metal Detection System that we offer is stringently tested on various parameters so as to ensure its defect-free mechanism. Thus, buying it from will be the safest option for the buyers. We are one of the leading Manufacturers, Exporters and Suppliers of Metal Detection System. We are capable of delivering orders for Metal Detection System within the promised time frame. It can be obtained from us at a very reasonable price.
