# A MESSAGE FROM OUR CEO

## Leading the Way: The One Stop Piping Solution

At Edoburg Piping Systems, we are one of the player of the piping industry, delivering cutting-edge solutions that meet the diverse needs of our global clientele. With the of excellence spanning over various products, we have earned a reputation for reliability, innovation, and unwavering commitment to quality.

Our journey is defined by a relentless pursuit of excellence in every project we undertake. From providing critical infrastructure solutions in the chemical and petrochemical sectors to supporting sustainable water management practices and enhancing operational efficiencies in mining and power generation, our solutions play a pivotal role in shaping industries worldwide.

We understand that each project is unique, requiring tailored solutions that not only meet but exceed expectations. This customer-centric approach drives us to continuously innovate and adapt, ensuring that our products not only meet current standards but set new benchmarks in performance, durability, and environmental stewardship.

As we navigate through an ever-evolving landscape, our dedication to sustainability remains steadfast. We are committed to integrating eco-friendly practices into our operations, from product design to manufacturing and distribution, to minimize environmental impact and contribute positively to the communities we serve.

At Edoburg, we believe in the power of collaboration and partnership. Together with our clients and stakeholders, we forge lasting relationships built on trust, transparency, and mutual success. Your trust in us drives our passion to deliver excellence in every aspect of our business.

Thank you for choosing Edoburg Piping Systems as your preferred partner. We look forward to continuing our journey together, creating innovative solutions and achieving milestones of success.

Warm regards,  
U. Prateek

# ABOUT US

Edoburg is an ISO 9001 certified company, specialises in supplying high-quality piping systems that consistently meet stringent international standards, ensuring unparalleled performance of the piping systems.

Our experienced team, armed with extensive technical expertise, ensures that our operations are efficient and our turnaround times are swift.

We offer a comprehensive range of piping solutions, including PEX, PPR, PERT, HDPE, MDPE, PVC-C, PVC-U, and composite pipes, designed to meet the diverse needs of industries such as chemical and petrochemical, water and wastewater, mining, power generation, marine, construction, manufacturing, agriculture, pharmaceuticals, and infrastructure.

With strategically located warehouses in India, Vietnam, and China, and a commitment to excellence in every aspect of our business, Edoburg is your trusted partner for reliable, durable, and innovative piping solutions worldwide.

# VISION

Edoburg's vision is to become the global leader in supplying high-quality piping solutions, exceeding international standards and fostering innovation to ensure reliability and sustainability worldwide.

# MISSION

Edoburg's mission is to supply high-quality piping systems worldwide, offering a complete solution that meets international standards to ensure superior performance in every project.

01

**Uncompromising Quality:** We adhere to stringent international standards and rigorous quality control to ensure our piping systems are reliable, durable, and safe.

02

**Diverse Product Range:** Our extensive lineup of piping solutions caters to a variety of industry needs, providing complete system solutions for any project.

03

**Global Reach:** Strategically located warehouses and efficient logistics partners enable fast and reliable worldwide distribution.

04

**Technical Expertise and Innovation:** Our experienced team offers exceptional technical support and continuously innovates to deliver cutting-edge piping solutions.

# KEY FACTORS

Our reputation is built on delivering unparalleled performance in piping systems through a combination of extensive technical expertise, efficient operations, and rapid turnaround times.

01

## Complete Solution Concept

Edoburg offers a diverse range of high-quality piping products for various sectors, delivering tailored solutions for both individual projects and comprehensive systems. Our longstanding commitment to excellence ensures reliability and superior performance.

02

## Quality Assurance

Edoburg is dedicated to delivering products that meet stringent international standards and certifications. Our rigorous quality control ensures reliability, durability, and safety, guaranteeing top-tier piping solutions that exceed customer expectations.

03

## Global Presence and Distribution

With strategically located warehouses in India, Vietnam, and China, Edoburg ensures efficient global distribution. Our robust logistics network ensures fast deliveries from hubs near major ports, supporting sectors like chemicals, water, mining, power, marine, construction, manufacturing, agriculture, pharmaceuticals, and infrastructure.

# PRODUCT OVERVIEW

## Polyethylene (PE) Pipes

Edoburg's Polyethylene (PE) Pipes division features a comprehensive range including PEX pipes (PEX-A, PEX-B, PEX-A EVOH, PEX-B EVOH) known for flexibility and durability, HDPE pipes prized for strength and versatility, MDPE pipes for efficient gas and water distribution, and PERT pipes offering flexibility and temperature resistance, catering to diverse industrial needs with reliability and longevity.

## Polypropylene (PP) Pipes

Edoburg's Polypropylene (PP) pipes are designed to offer durable solutions for a wide range of applications, particularly suited for both hot and cold water systems. Whether used in residential, commercial, or industrial settings, Edoburg's PP pipes meet stringent quality standards, providing peace of mind in terms of longevity and performance. With a focus on durability and ease of installation, our PP piping solutions are a trusted choice for projects requiring dependable water distribution systems.

## Polyvinyl Chloride (PVC) Pipes

Edoburg's PVC Pipes are crafted for reliability and versatility. PVC-C pipes are ideal for portable water, reclaim water, and industrial applications, ensuring lasting performance. PVC-U pipes excel in drainage and industrial uses, offering durable fluid management solutions. Our PVC-O pipes use advanced orientation technology for enhanced performance and longevity. We also provide PVC electrical conduits for wiring protection and flexible PVC hoses for diverse industrial and residential applications.

# QUALITY WE SERVE

Edoburg Piping Systems ensures top-notch quality by adhering to international standards and certifications, guaranteeing reliable, durable, and safe products for every project.

At Edoburg Piping Systems, our unwavering commitment to quality is the cornerstone of our operations. We are dedicated to delivering pipes that not only meet but exceed international standards and certifications. Each piping solution undergoes rigorous quality control processes to ensure it is reliable, durable, and safe for all applications.

The pipes we supply are manufactured to adhere to a wide array of global standards, including ASTM, DIN, ISI, AS/NZ, BS, EN, ISO, UNI, and others. This extensive compliance ensures that our products meet the diverse needs of our clients across various industries.

In addition to meeting these stringent standards, our pipes are certified by some of the most esteemed organizations in the industry. Certifications from NSF, WRAS, CSA, AENOR, WATERMARK, CE, USPC-I, and NFPA-13, among others, attest to the superior quality and performance of our piping systems.

By maintaining such high standards and achieving these certifications, we guarantee that the pipes we supply deliver exceptional performance and long-lasting value in every project. At Edoburg Piping Systems, quality is not just a promise—it is our commitment to you, ensuring that you receive the best piping solutions available in the market.

# OUR PRESENCE

Our warehousing are strategically located in various places in India, Vietnam and China, to ensures efficient distribution of the products. We ensure fast deliveries with our modern logistics partners deployed at our local distribution hubs which are strategically located near the ports to ease the export of products. Edoburg Piping Systems exports its products all over the world.

### Logistics Partners

We collaborate with modern logistics partners for efficient global distribution.

### Distribution Hubs

Strategically located near major ports for streamlined export operations.

### Industry Reach

Serving diverse sectors including chemical, water management, mining, etc. globally.

# INDUSTRIES WE SERVE

Edoburg Piping Systems caters to a diverse range of industries, delivering tailored piping solutions that meet stringent standards and project requirements:

**Chemical and Petrochemical:** Providing essential piping solutions for chemical processing and petrochemical industries.

**Water and Wastewater Management:** Supporting efficient distribution and management of water resources.

**Mining and Mineral Processing:** Supplying robust piping systems for mining operations worldwide.

**Power Generation:** Offering reliable piping solutions for power plants and energy generation facilities.

**Marine and Offshore:** Delivering durable piping solutions for marine and offshore applications.

**Building and Construction:** Facilitating infrastructure development with versatile piping solutions.

**Manufacturing:** Serving the specialized needs of manufacturing industries with custom piping solutions.

**Agriculture:** Providing irrigation and water management solutions for agricultural applications.

**Pharmaceuticals:** Ensuring hygienic and compliant piping solutions for pharmaceutical manufacturing.

**Infrastructure Development:** Supporting large-scale infrastructure projects with dependable piping systems.
