# About Us

When it comes to quality chemicals and petrochemical products, Suez Facilitators can be the right place to source them. In the business since 2020, Suez Facilitators is a Mumbai (Maharashtra)-based company that is involved in supplying and exporting a wide range of products including urea formaldehyde concentrate, urea-formaldehyde adhesive, stretch films, plastic granules, urea 46% fertilizer, formalin liquid, paraformaldehyde powder, and many more.

Our company operates with the aim to establish a hassle-free supply chain. It has tied up with some genuine and trusted vendors in the industry from whom it obtains quality products. Thus, it ensures that all the products it offers are prepared using the best quality ingredients and are safe to use. The offered product range is known for its uncompromising quality and is made available in safe packing options. Along with expanding our business in India, we are marking our presence in many countries like Turkey, Iran, Russia, Ukraine, Belarus, Senegal, Bangladesh, etc. We are also constantly making efforts for entering new markets.

We have a team of efficient and hardworking individuals whose ability has proven to be a key support to our company. They ensure that each of the products is prepared in compliance with specified standards. They highly focus on catering to the demands of clients across various industries and strive for their complete contentment.

We aim to have a large client base in the domestic as well as international markets by delivering effective & quality products and personalized services. Additionally, we make our products available at competitive rates, making them affordable for everyone.
