EXTENSIVE VAREIETY UNRIVALLED PRODUCTS DISPLAY

Hessian sand bags are the most well-known and reliable method of keeping floodwater away from property. They are flexible, hardwearing and biodegradable, meaning that the bag will naturally degrade over time.

Our Hessian Sand bags are perfect for: Flood control and protection, Reinforcing existing dike structures, Erosion control, Levee construction, providing extra weight for traffic / road signs.

Most of products can be customised and printed with your company or business design or alternately, we can develop designs for you.

Why Jute instead of Plastic!

The use of jute products instead of plastic products has many advantages, including:

- Jute is a natural fiber which is very strong and highly durable.
- Jute products are seen to maintain their gloss and glaze for a longer time.
- The jute, being a natural fiber, decomposes within a standard period, say, few weeks & months.
- Jute products affordable & versatile fiber.
- Jute products ensure good ventilation.
- Biodegradable and compostable, Non-Toxic.
- Jute in hills Co2 from the environment and releases Oxygen at a very high range.
- Jute reusable and therefore environment friendly.
- Cheap, attractive and fashionable.

Why We Are!

- Our Product is eco-friendly & durable.
- Customization & timeliness.
- Excellent packaging facilities.
- Efficacious design & printing.
- Wide distribution network.
- Skilled & expert workforce.
