Optical Bench

Product Image

Description

The optical bench is commonly used in physics labs today, and consists of a long, rigid member with a linear scale applied to it. Holders for light sources, lenses and screens are placed on the apparatus so that image formation can be observed.

Available in metal form.

Particulars	Catalog No.
Optical Bench, Metal	SV01222

A quality product from SHRI VISHWAM ideal for use in School Laboratories in developing countries of Asia, Africa and South America.

Standard specifications for school laboratory use. Ideal mix of Quality and Economy.

Other configurations and superior quality available for specific use or for developed countries.
