About Us

IndiaZone Enterprises is a dynamic young Company, with its Exports Division specialized in the export of Healthcare and Medical devices. We are a company based in India- one of the fastest growing economy in the world We strive to deliver high-quality, reliable, and affordable solutions to professional clinical laboratories, hospitals, and physician offices. We have a strong manufacturing partner base comprising quality associate manufacturers from India, which enable us to offer Quality Products at affordable prices. We deal in all types of disposables, equipment's, instruments required in the medical & surgical industry.

Product Range

Our product range includes devices and disposables for Diagnostic Cardiology, Interventional Cardiology, Radiology, Critical Care, Surgery, Point of Care devices, General Health and Hygiene. We cater to the needs of Hospitals, Health care centres, medical colleges, Pathology Labs and Personal Home care. Following the virtues, we firmly believe in offering only quality products along with competitive pricing. All our products come with ISO & CE certifications. The Company's promoters have a thorough knowledge on their subject. They have a large Experience in healthcare domain of domestic and International Business.

Vision

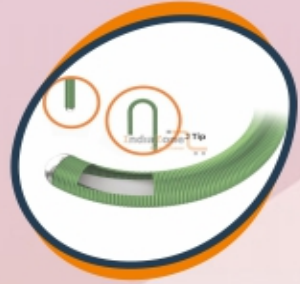

Company's vision is to thrive for a global presence. IndiaZone Enterprises' key USP is, that we stay in constant personal touch with our clients & give them the best of everything. Just in time, delivery is the hallmark of our company. Our dynamic promoters believe in maintaining a long-term relationship with our valuable clients. Due to our strong business acumen and networking skills, we are always on the lookout for top of the line manufacturing partners from India and potential Business partners Internationally.

Customer Service' is our motto, consequently we have a number of satisfied customers in many countries and regions including Latin America, The Middle East, Africa, South East Asia and Europe.

We support companies in their efforts to participate in tenders floated by The Ministry of Health in various countries. Our main products are listed on this site. In case the items of your interest are not listed here, please contact us. We may be able to quote for those items too.
