

DATACARD® CD800™ SERIES CARD PRINTER WITH OPENCARD FORMAT

Built for outstanding speed, performance and reliability, the CD800 card printer with OpenCard format is an ideal solution for casinos and other gaming venues.

Print attractive, personalized player tracking cards and secure IDs that strengthen relationships with your customers

Improve relationships with your customers, strengthen customer loyalty and reduce your operating costs

The Datacard® CD800™ card printer with OpenCard format efficiently produces attractive player and VIP cards in less time than comparable desktop printers. Now you can print unique card designs in full color that can significantly enhance your marketing messages — efficiently and affordably. Improve the quality of your overall customer experience with the addition of dynamic, personalized cards.

Strengthen Relationships and improve the customer experience. Build loyalty by better connecting with your customers. With one of the fastest printing speeds in the industry, deliver a new player card in seconds. The printer can also be used to quickly create custom cards for promotions, shows or events. Capture demographic data to improve the effectiveness of your player tracking or loyalty points programs.

Improve efficiency while reducing costs. The CD800 printer with OpenCard format saves you money by reducing the need for pre-printed cards. Use blank stock to create everything from player and VIP cards to room keys, employee badges and more. Print intricate, full-color graphics with resolutions up to 300 x 1200 dpi — an industry first. A productive six-compartment input hopper gives you the flexibility to issue a variety of card types for a wide range of uses in an instant. The CD800 printer with OpenCard format is one of the fastest card printers in its class.

Advantages you won't find anywhere else

- The CD800 Card Printer with OpenCard format is a great solution for casinos and other gaming venues
- Enhancements made to improve boot up time, first card out and processing time make this one of the fastest printers available in the market today
- Dual-sided printing for increased flexibility in card design
- Option to add lamination for enhanced durability
- Unique tactile impression feature adds additional security while promoting your brand
- Optional multi-hopper to support multiple card types/designs
