About Us

We, Avion Corporation, established in 2000, are a reputed business venture based in Pune (Maharashtra). We are involved in trading, supplying, and distributing a superlative range of industrial motors, pumps, and equipment. The offered product range includes industrial gearboxes, submersible pumps, borewell pumps, open-well pumps, end suction pumps, dewatering pumps, multistage pumps, coupled pumps, electric motors, helical gear motors, variable frequency drives, and much more. All of these products are of reputed brands and are highly appreciated for their top performance, advanced features, long service life, and low maintenance.

We operate with the aim to provide unmatched products and extraordinary services to our customers. We maintain a high standard of quality in our products matching with recent trends in consumer demands and competition in today's market.

There is a group of diligent people at Avion Corporation, who take care of every single aspect of the business so as to ensure everything goes well. We have maintained a top-notch business network across Maharashtra and this network is well-supported with excellent logistics facilities that assist in supplying products to our clients based in various cities of Maharashtra.

The company maintains a huge in-house data which enables us to quickly source our product range and make competitive quotations for our client's requirements. It is always our endeavor to coordinate and deal with popular vendors across the industry in order to fully satisfy our clients in terms of quality as well as cost-effectiveness.
