Nitya Green Energy is a forward-looking renewable energy company established in 2024 and headquartered in Bilaspur, Chhattisgarh, India. The company specializes in supplying sustainable bioenergy solutions to support environmentally responsible energy consumption across domestic and international markets.

Operating as an Exporter, Supplier, and Trader, Nitya Green Energy serves customers worldwide with a portfolio that includes Biomass Fuels, Rice Husk, Mustard Husk, Sawdust, Cow Dung & Products. Our products are sourced from sustainable agricultural and forestry practices to ensure consistent quality, high calorific value, and eco-friendly energy output. These renewable energy solutions are widely used in households, industries, and commercial applications seeking sustainable alternatives to conventional fuels.

At Nitya Green Energy, quality, sustainability, and customer satisfaction form the foundation of our operations. We implement controlled sourcing, processing, and packaging practices to maintain product integrity, reduce environmental impact, and ensure compliance with international quality standards. Each product undergoes strict quality checks to guarantee optimal performance and reliability.

Strategically located in Chhattisgarh, we leverage efficient supply chains and logistics networks to deliver timely shipments to clients globally. Our customer-centric approach emphasizes transparent business practices, competitive pricing, and responsive support to meet diverse energy requirements.

Driven by innovation, environmental responsibility, and operational excellence, Nitya Green Energy is committed to promoting clean and sustainable energy solutions. Our mission is to contribute to a greener planet by delivering high-quality biofuels that combine efficiency, reliability, and environmental sustainability.
