

**Par Industries**

**Par Industries**

**THE BEST**  
Quality Products

Par Industries is a name that is synonymous with honesty, customer-centric approach, perfection, and high values. We are a remarkable supplier of metanilic acid, diethyl meta amino phenol, meta uredo aniline, nitrobenzene, resist salt, G salt, sodium bisulphite, sodium bisulphite, beta naphthol, and much more. We select the vendors on the basis of their timely delivery, professional approach, and trustworthiness. Our high industry experience has allowed us to create a high position in the industry. This has helped us gain the trust of our clients. Our meticulous workforce help us to adhere to international standards. Our distribution network is spread across the major industries within India.

# ABOUT US

Par Industries is a name that is synonymous with honesty, customer-centric approach, perfection, and high values. We are a remarkable supplier of metanilic acid, diethyl meta amino phenol, meta uredo aniline, nitrobenzene, resist salt, G salt, sodium bisulphite, sodium bisulphite, beta naphthol, and much more. We select the vendors on the basis of their timely delivery, professional approach, and trustworthiness. Our high industry experience has allowed us to create a high position in the industry. This has helped us gain the trust of our clients. Our meticulous workforce help us to adhere to international standards. Our distribution network is spread across the major industries within India. We sell these chemicals in various factories and industries at the most reasonable price range.

Deeply rooted in Ahmedabad (Gujarat, India), Par Industries is one of the distinguished fraternities that are involved in supplying the high quality acids and chemicals. The company has been operational in the industry since the year 2003 under the proprietorship of Mr. Sanjay Panchal (CEO).

## Our Team

We have a team of meticulous professionals, who strive to satisfy the diverse requirements of our clients. Our team includes quality controllers, sales executives, delivery agents, and manufacturers. They work in coordination with each other to enhance the sales of the company.

## Why Choose Us?

We have gained the position of a preeminent supplier and trader of chemicals due to the following reasons:

- On-time delivery of products
- Certified vendor base
- Well-trained team of professionals
- Ethical business practices
- Huge distribution network
- Competitive price ran

# OUR PRODUCTS

## SODIUM BISULPHITE

|  |   |
|--|---|
| Chemical Formula   | : Na <sub>2</sub> S <sub>2</sub> O <sub>5</sub> |
| CAS No.  | : 7681-57-4                                     |
| Molecular Wt.  | : 190.  |
| As SO <sub>2</sub> content<br>(Iodometry Method )            | : 60% To 62%                                    |
| Assay As (As Na <sub>2</sub> S <sub>2</sub> O <sub>5</sub> ) | : 97% Min.                                      |
| Appearance   | : White Crystalline Powder.                     |

## ANILINE OIL

|                   |   |
|-------------------|---|
| Cas No.           | : 62-53-3                                       |
| Einecs No.        | : 200-539-3                                     |
| Formula           | : C <sub>6</sub> H <sub>5</sub> Nh <sub>2</sub> |
| Mol Wt.           | : 93.13   |
| H.S. Code         | : 2921.41                                       |
| Toxicity Oral Rat | : Ld50 250 Mg/Kg                                |
| C.I.              | : 76000   |

## SODIUM NAPHTHIONATE

|                  |   |
|------------------|---|
| MF               | : C <sub>10</sub> H <sub>8</sub> N NaO <sub>3</sub> S |
| Purity           | : 99%   |
| Usage            | : Industrial  |
| CAS Number       | : 130 -13 -2  |
| Molecular Weight | : 245.23 Grams / Mole                                 |
| Pack Type        | : HDPE bag  |
| Pack Size        | : 10-50 kg, etc                                       |

## CAUSTIC POTASH

|                |                |
|----------------|----------------|
| CAS No.        | : 1310-58-3    |
| EINECS No.     | : 215-185-3    |
| Purity         | : 99%          |
| Usage          | : Industrial   |
| PACKING        | : 25 KGS BAG   |
| Features       | : High quality |
| Physical State | : Solid        |

## PARA NITRO TOLUENE

|               |  |
|---------------|--|
| Purity        | : 90%  |
| Usage         | : Industrial   |
| Boiling Point | : 238 °C   |
| CAS No.       | : 104-15-4 or 6192-52-5  |
| MF            | : C <sub>7</sub> H <sub>8</sub> O <sub>3</sub> SH <sub>2</sub> O |
| EINECS No.    | : 6192-52-5  |

## SODIUM NITRITE

|                |   |                      |
|----------------|---|----------------------|
| Purity         | : | 99%                  |
| Physical State | : | Powder               |
| Usage          | : | Industrial           |
| Color          | : | White                |
| Pack Size      | : | 10-50 kg, etc        |
| Features       | : | Long functional life |

## DIETHYL META AMINO PHENOL

|                |   |                |
|----------------|---|----------------|
| CAS No.        | : | 43141-69-1     |
| MF             | : | C14H23NO       |
| Purity         | : | NLT95%         |
| Appearance     | : | Liquid         |
| Usage          | : | Industrial     |
| Packaging Size | : | 40kgs          |
| Pack Size      | : | 10-50 ltr, etc |
| Color          | : | Yellow         |

## META UREDO ANILINE

|                     |   |   |
|---------------------|---|---|
| Formula             | : | C7H9ON3   |
| Molecular Wt.       | : | 51 Gm/ Mole   |
| Physical Appearance | : | Multi-Color   |
| Purity              | : | N.V. : Above 68 %   |
| Form                | : | Liquid  |
| M.P.D. Content      | : | Below 0.2 % Clarity : Clear in Hot<br>Water Insoluble in hot water : 0.5 %<br>Max |

## PARAPHENYLENEDIAMINE

|               |   |                      |
|---------------|---|----------------------|
| MF            | : | C6H8N2               |
| Boiling Point | : | 267 °C               |
| Molar Mass    | : | 108.14 g/mol         |
| ChemSpider ID | : | 13835179             |
| Usage         | : | Industrial           |
| Features      | : | Long functional life |

## DIPHENYLAMINE (D.P.A.)

|                   |   |            |
|-------------------|---|------------|
| CAS No            | : | 122-39-4   |
| EINECS No         | : | 204-539-4  |
| Formula           | : | (C6H5)2NH  |
| Mol Wt.           | : | 169.23     |
| H.S. Cod          | : | 2921.44    |
| Toxicity Oral Rat | : | 2000 mg/kg |

# OUR PRODUCTS

## METANILIC ACID

|              |   |                  |
|--------------|---|------------------|
| MF           | : | C6H7NO3S         |
| Purity       | : | 100%             |
| Formula      | : | C6H7NO3S         |
| Density      | : | 1.69             |
| Feature      | : | Soluble in water |
| CAS          | : | 121-47-1         |
| Einecs (EC#) | : | 204-473-6        |

## BENZIDINE 2,2 DISULPHONIC ACID

|                   |   |                               |
|-------------------|---|-------------------------------|
| Purity            | : | 99%                           |
| Usage             | : | Industrial                    |
| Molecular Formula | : | C12H12N2O6S2                  |
| Molecular Weight  | : | 344.356 g/mol                 |
| Chemical Names    | : | 2,2'-Benzidinedisulfonic acid |

## BENZIDINE 2,2 DISULFONIC ACID

|              |   |                 |
|--------------|---|-----------------|
| MF           | : | C8H7BrO2        |
| Purity       | : | 99%,80% minimum |
| Appearance   | : | White powder    |
| CAS          | : | 102-56-7        |
| Mol. Wt.     | : | 153             |
| Packing Size | : | 25 / 50 Kgs.    |

## PARA AMINO AZO BENZENE 4 SULPHONIC ACID

|                   |   |   |
|-------------------|---|---|
| Product Name      | : | P. A. A. B. S. A.                       |
| Chemical Name     | : | Para amino azo benzene 4 sulphonic acid |
| Empirical Formula | : | c12h11n3o3s                             |
| CAS No            | : | 104-23-4                                |
| Molecular Weight  | : | 277                                     |
| Dry               | : | 90 % min                                |
| Colour            | : | Orange                                  |

## PARA NITRO TOLUENE ORTHO SULPHONIC ACID (PNT-OSA)

|                     |   |   |
|---------------------|---|---|
| Purity              | : | Min 82% by Nitrite value                      |
| Physical State      | : | Solid   |
| C.A.S. NO.          | : | 121 - 03 - 09                                 |
| Molecular Formula   | : | C7H7SO5N                                      |
| Molecular Weight    | : | 217   |
| Physical Appearance | : | White Crystal Wet Cake                        |
| Solubility          | : | 50% Solution in water is clear & transparent. |

# OUR PRODUCTS

## ANILINE 2, 5 DISULFONIC ACID

|               |   |                             |
|---------------|---|-----------------------------|
| Chemical Name | : | Aniline 2.5 Sulphonic Acid  |
| Purity        | : | 80% minimum                 |
| Form          | : | Powder                      |
| Color         | : | White                       |
| Packing Size  | : | 25 / 50 Kgs.                |
| Packing Type  | : | HDPE bags / jumbo with line |

## BENZEDINE DISULPHONIC ACID

|                  |   |                             |
|------------------|---|-----------------------------|
| Chemical Name    | : | 4-4 Diamino Diphenyl        |
| Chemical Formula | : | C12H12S2O6N2                |
| Molecular Weight | : | 344 gm / mole               |
| CAS No           | : | 117-61-3                    |
| Purity           | : | 70 % minimum                |
| Appearance       | : | Off White Or Pink To Yellow |
| Packing Size     | : | 25/50 kg                    |
| Packed In        | : | H.D.PE. Woven Bags          |

## TOBIAS ACID

|                  |   |                  |
|------------------|---|------------------|
| Purity           | : | 92%              |
| Form             | : | Powder           |
| Grade            | : | Tech Grade       |
| Solubility       | : | Soluble In Water |
| Physical State   | : | Powder           |
| Chemical Formula | : | C10h9o6s2n       |

## SULFANILIC ACID

|         |   |                      |
|---------|---|----------------------|
| CAS No. | : | 121-57-3             |
| Purity  | : | 98.5% by wt. Minimum |
| Color   | : | White                |
| Usage   | : | Industrial           |
| Form    | : | Powder               |

## META PHENYLENE DIAMINE 4- SULPHONIC ACID

|            |   |                           |
|------------|---|---------------------------|
| CAS No.    | : | 27176-87-0                |
| EINECS No. | : | 248-289-4                 |
| Purity     | : | 99%,95%                   |
| Usage      | : | Industrial                |
| Density    | : | 1.48 g/cm <sup>3</sup>    |
| Molar Mass | : | 96.10 g·mol <sup>-1</sup> |

## ANILINE 2:4 DISULPHONIC ACID

|                   |   |  |
|-------------------|---|--|
| MF                | : | C <sub>8</sub> H <sub>7</sub> BrO <sub>2</sub> |
| Form Of Chemicals | : | Liquid   |
| Color             | : | Multi-Color                                    |
| Purity            | : | 99%  |
| CAS               | : | 102-56-7                                       |

## J ACID

|                   |   |  |
|-------------------|---|--|
| Purity            | : | 99%  |
| Molecular Formula | : | C <sub>10</sub> H <sub>9</sub> NO <sub>4</sub> S |
| Formula Weight    | : | 239.25   |
| Form              | : | Powder   |
| Pack Size         | : | 10-50 kg, etc                                    |
| CAS No.           | : | 87-02-5  |

## RESIST SALT

|                 |   |   |
|-----------------|---|---|
| Purity          | : | 99%   |
| MF              | : | C <sub>6</sub> H <sub>4</sub> NO <sub>2</sub> SO <sub>3</sub> |
| Water Insoluble | : | 0.15%   |
| Feature         | : | Highly effective  |
| Form            | : | Powder  |
| Color           | : | White   |

## G SALT

|                   |   |  |
|-------------------|---|--|
| Color             | : | White  |
| Pack Size         | : | 10-50 kg, etc  |
| Purity            | : | 99%  |
| CAS NO.           | : | 842-18-2   |
| Packing           | : | H. D. P. E. Bags with inside polythene liner.                |
| Empirical Formula | : | C <sub>10</sub> H <sub>8</sub> O <sub>7</sub> S <sub>2</sub> |
