MISSION FARMING

- Our Mission is to revolutionize millet farming through innovative technology.
- Improving Productivity of Millet Crops.
- Millet more has been promoting improved agronomic practices for improvement in quality and diversity of millet seeds as well as higher productivity and incomes from millets.
- We provide farmers with the knowledge and skills they need to excel in cropping, irrigation, pest management, and harvesting techniques.
- Our team takes care of everything, from cultivation to harvesting, ensuring that farmers receive hands-on guidance and support throughout the process. By offering end-to-end assistance, we enable farmers to achieve the best possible outcomes for their crops.
- We are committed to providing farmers with comprehensive support throughout their millet farming journey. From high-quality seeds and organic fertilizers by (UTKAL BIO & BUG INDUSTRIES PVT.LTD.) to modern farming techniques and expert guidance, we equip farmers with everything they need to cultivate successful millet crops.

QUALITY ASSURANCE & HYGEINIC PACKAGING

- We prioritize the quality of our millet products. Our processing facilities are equipped with cutting-edge technology and adhere to strict quality control standards. With meticulous processing procedures, we ensure that the nutritional value, taste, and texture of the millets are preserved, delivering a premium product to consumers.
- We understand the significance of packaging in maintaining product integrity. Our millets are carefully packed in hygienic and eco-friendly packaging materials, ensuring product freshness and preventing contamination. The packaging is designed to enhance shelf life, convenience, and ease of use for consumers.

LOCAL & INTERNATIONAL MARKET ACCESS

MilletMore

नाम ही Kafi है!

Our robust processing capabilities enable us to cater to both local and international markets. By processing the millets to meet customer specifications and labeling requirements, we expand the market accessibility for our farming partners.

This opens up opportunities for increased sales, export potential, and global recognition of Odisha's millet produce.
