About Us

Agri Life Farmers Producer Company Limited, a pioneering force in the realm of sustainable agriculture. Established in 2021 by the visionary Dr. Somnath Ramdas Bhaskar, our company is headquartered in the vibrant city of Ahmednagar, Maharashtra. Committed to fostering eco-friendly farming practices and promoting agricultural sustainability, Agri Life is a trusted manufacturer, exporter, supplier, trader and service provider of a diverse range of high-quality agricultural products.

At Agri Life, we take pride in our commitment to environmental stewardship and the well-being of farmers. Our product portfolio reflects our dedication to promoting organic and sustainable farming methods. We specialize in the production of Vermiwash Fertilizer, Turmeric Root & Powder, Live Earthworms, Organic Moringa Powder, HDPE Vermicompost Beds, Prom Phosphate Rich Organic Manure, and various other organic fertilizers.

One of our key offerings is Vermiwash Fertilizer, a nutrient-rich liquid fertilizer produced through the vermicomposting process. This organic solution enhances soil fertility and plant growth, promoting a healthier and more sustainable agricultural ecosystem. Additionally, our Turmeric Root & Powder, Live Earthworms, and Organic Moringa Powder exemplify our commitment to providing farmers with high-quality, natural products that contribute to the overall health of crops and soil.

Agri Life Farmers Producer Company Limited also specializes in HDPE Vermicompost Beds, designed to facilitate efficient vermicomposting, a sustainable method for recycling organic waste into nutrient-rich compost. Our Prom Phosphate Rich Organic Manure and other organic fertilizers are formulated to meet the diverse nutritional needs of crops, promoting soil health and long-term agricultural productivity.

Founded with a vision to revolutionize agriculture and contribute to a greener, more sustainable future, Agri Life is dedicated to the empowerment of farmers. Our mission is to provide eco-friendly solutions that enhance agricultural productivity while minimizing environmental impact.
