

DERBY
TRADING LIMITED
SINCE 1797

Derby Trading Limited is a leading Importer, Exporter, Supplier of Metals and Minerals to many different industries around the globe including the Aluminium, Foundry, Welding and Ceramics industries. Our range is inclusive of Rutile Sand, Rutile Powder, Zircon Sand and Silicon Metal. Cobalt, Manganese Flakes, Misch Metal, Ferro Chrome, Ferro Niobium, Ferro Silicon, Ferro Titanium, Vanadium Pentoxide, Molybdenum concentrates.

ABOUT US

DERBY TRADING LIMITED. based in London (UK) merged its Metal Division with the Derby Minerals Division in the year 2010. This incorporation merged two independent trading divisions each with several decades of experience of sourcing and distributing commodities from origin to customers around the globe. As a result, Derby has been able to expand and diversify its product range to a wider international customer base.

OUR INFRASTRUCTURE

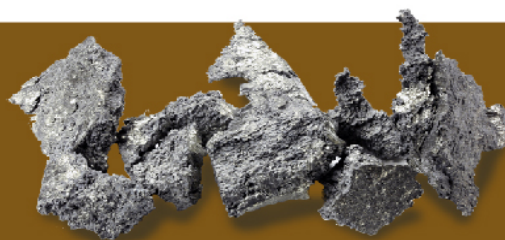

Derby has established connections with some of the world's leading producers of raw materials. We have an established network of warehouses in different continents enabling us to maintain an efficient supply chain for our customers. Many customers have chosen Derby specifically for the just-in-time delivery facility that we provide.

Derby has an in-house logistics division that handles a wide range of delivery options whether by sea or by road. FCL and LCL shipments, full truckloads and part loads in bulk or in big bags can all be arranged according to the customer's requirements.

Derby employs inspection companies to ensure that raw materials are supplied according to the required specifications.

Processing of material can also be arranged through our network of facilities that can customize the material to the customer's requirements.
