Shree Khodiyar Engineering Works was established in the year 1999 in Rajkot, Gujarat, India. We are manufacturer and supplier of Brass Casting Products, Drop Out Fuse Products, Engineering Products, Gyro Mixer, Isolator Panels and Transmission Line Products. The products of our company are manufactured using quality raw materials that are sourced from the best dealers and suppliers. We have the latest tools and technology to offer the best products to our customers always.

Our Infrastructure

We have a huge infrastructure that has several units that are responsible for proper manufacturing products. All the units are looked after by experts who ensure that the products are quality-assured and have no flaws.

Besides, to maintain a conducive working environment, we have segregated our infrastructure into various departments that are listed below:

- Manufacturing
- Quality testing
- Warehousing & packaging
- Administrative
- Our Warehouse
- Stock Units

Our Team

We are greatly supported by a dexterous team of professionals in all the activities of our trade. The dedicated, sincere and hardworking professionals working with us are masters in their respective fields of specialization.

Our experts are well-versed in the operating knowledge of the latest machines, which helps them in successfully accomplishing the assigned tasks. Furthermore, all our team members work in close coordination with each other to attain the organizational goals in an effective & efficient manner.

Apart from this, we organize training sessions & workshops at regular intervals to enhance their skills & knowledge.
