Samrat Agro Industries was established in the year 1978 in Uttar Pradesh, India. We are a Manufacturer, Supplier, Exporter and Trader of automotive wheel rims and trailer axles.

Samrat Agro Industries has been rapidly expanding its product line over the past few years, and this has been made possible by its strong expertise in product design, tool design, tool development, wheel production technology, and wheel testing. Our product selection is the broadest, and we take pride in producing wheels for the smallest, largest, and widest single-piece tractors in India.

● **Our Team**

Samrat Agro Industries is always working to innovate, improve our products, develop new products, and streamline our processes in our dedicated R&D centre, which has been approved by the Department of Scientific and Industrial Research (DSIR), Ministry of Science and Technology, Government of India.

Samrat Agro Industries has assisted numerous original equipment manufacturers in procuring their wheels domestically from India as an alternative to relying on a global supply chain. For the development of new goods, Samrat Agro Industries has also been a favoured supplier for many of its OEM clients. It has been at the forefront of developing wheels for cutting-edge products including the first lawnmowers, electric tractors, and hybrid tractors developed in India.

● **Our Mission**

Samrat Agro Industries is dedicated to providing all of its clients with high-quality products by putting a strong emphasis on technology, adding value, and cooperating for excellence.
