Founded in 2006, Swastik Plastic is a reliable supplier in the industry of plastic raw materials. At the forefront of the company is Mr. Ramesh Solanki, reflecting managerial skills and belief in the operation. As the contact person, Mr. Solanki contributes an essential part to ensuring the company's prosperity.

With an unwavering dedication to quality, we have grown into an essential partner in pan-Indian markets. Our broad line of products includes ABS plastic granules, recognized for their outstanding endurance; thermoplastic polyurethane granules identified for stability; and white UHMWPE powder, demonstrating our commitment to flexibility.

Located carefully in a manufacturing center, we establish ourselves to satisfy the ever-changing requirements of different sectors. Our company's fundamental beliefs concentrate on providing excellent plastic products. Additionally, our team of professionals offers a constant dedication to achieving and exceeding regulatory requirements.

Understanding the essential function of reliable plastic products in the present-day manufacturing environment, we constantly work to satisfy standards. This commitment strengthens our reputation as an option for companies across the country. Our extensive range of products and ideal location highlights our dedication to delivering superior plastic raw materials.

As we keep growing, our company remains committed to supporting the prosperity of the clients we serve and upholding an established reputation in the ever-evolving plastic industry landscape.
