**MANUFACTURER, EXPORTER & SUPPLIER** 

#### **ABOUT US**

Welcome to Shree Hanuman Ice & Cold Storage, a trusted name in the field of agriculture and horticulture since 1979. Founded by the visionary Mr. R.G. Agarwal, our company has its roots deeply embedded in the fertile soil of Kolkata, West Bengal. With decades of experience and a commitment to quality, we have grown into a prominent Manufacturer, Exporter, and Supplier of Banana Plants and Vermicompost Fertilizer.

Our journey began over four decades ago when Mr. Agarwal recognized the immense potential of the agriculture sector in India. Fueled by his passion for farming and a desire to contribute to the country's agricultural growth, he established Shree Hanuman Ice & Cold Storage. Since then, our company has been dedicated to providing top-notch products and services to farmers, horticulturists, and enthusiasts alike.

Banana Plants are one of our flagship offerings. We take immense pride in growing and nurturing high-quality banana plants that thrive in various environmental conditions. Our expertise in banana plant cultivation has made us a preferred choice for farmers across the country and beyond.

In addition to Banana Plants, we also specialize in Vermicompost Fertilizer. Our commitment to sustainable farming practices has led us to develop and supply premium vermicompost fertilizer that enriches the soil, enhances crop yields, and promotes healthier plants. We understand the importance of organic and eco-friendly farming, and our vermicompost fertilizer is a testament to our dedication to this cause.

At Shree Hanuman Ice & Cold Storage, we believe in continuous innovation and improvement. Our team of experts works tirelessly to research and develop new agricultural techniques and products that cater to the evolving needs of the farming community.
