Industry Standard

All our products are designed and manufactured according to industry standards.

Reliability

We have been in the field of manufacturing since 1986 and you can rely on us for all your hardware product requirements

Accuracy of Dimensions

We look with a close eye for perfection in all our manufactured products.

Delivery on Time

We value your time and we try to make every delivery on time with your utmost satisfaction and quality products.

Quality Assurance in Manufactured Products

We have always been appreciated for our strict quality management systems in the industry. Quality is the most important element of our business operations, which we never compromise on.

We have established modern quality testing facilities that enable us to check our Cast Iron Products on various industrial standards.

Further, we have appointed a team of quality controllers who monitor the entire manufacturing process, right from procuring the raw material to final dispatch of the consignments to ascertain that the products meet the perfect finish requirements as demanded by the customers.
