Established in the bountiful year of 2023, Kashivindhya FPO is a pioneering force in the heartland of Uttar Pradesh, India. With a commitment to agricultural excellence, we proudly stand as manufacturers and suppliers of premium-quality products such as Vermicompost, fresh tomatoes, fresh red chillies, and a diverse array of farm-fresh produce.

Vermicompost: Explore our premium Vermicompost, meticulously crafted for exceptional plant nourishment. Our organic fertilizer boasts ideal NPK levels (nitrogen 1.5-3%, potassium 1.8-2.25%, phosphorus 1-2.25%), promoting high permeability, excellent aeration, and optimal water retention. With a pH of 6.5-8 and a granulated blackish form resembling soil, it embodies eco-friendly cultivation practices, ensuring top-notch quality for your plants.

Vegetables: We deliver premium-quality fresh tomatoes, green and red chilies. Our produce boasts longer shelf life, superior nutrient content rich in vitamins (A&C), minerals like potassium and magnesium, antioxidants, and dietary fiber.

Female farmers

Rooted in empowering women, our company pioneers the integration of cutting-edge agricultural technology, aligning with market demands to boost production quality for optimal nutrition. With over 250 members, our FPO thrives on active participation and leadership from female farmers, driving inclusive growth and development.

Our Roots

Rooted in the fertile soil of Uttar Pradesh, Kashivindhya Agro FPC was founded with a vision to empower local farmers and contribute to the agricultural prosperity of the region. Our journey began with the noble intention of bridging the gap between farmers and consumers, fostering a sustainable and mutually beneficial relationship.

Cultivating Excellence

At Kashivindhya Agro, we believe that excellence starts from the ground up. We work hand in hand with local farmers, providing them with the necessary resources and knowledge to cultivate high-quality produce. Our commitment to excellence extends from the field to our advanced processing facilities, ensuring that every product that bears our name meets the highest standards of freshness and taste.

Sustainable Agriculture

Kashivindhya Agro is committed to sustainable and eco-friendly farming practices. We prioritize environmentally conscious methods, utilizing modern agricultural techniques to minimize our ecological footprint. Our dedication to sustainable agriculture not only benefits our consumers but also contributes to the overall health of our planet.

Our Contributions Towards Sustainable Development Goals

No 1 - Poverty

End poverty in all its forms everywhere

No 5 - Gender equality

Achieve gender equality and empower all women and girls

No 15- Life on Land

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

Community Empowerment

As a Farmer Producer Company, we take pride in uplifting local communities. By providing fair prices to farmers and creating a platform for collective growth, Kashivindhya Agro aims to make a positive impact on the lives of those who work tirelessly to bring nature's bounty to your table.

Customer Delight

At Kashivindhya Agro, customer satisfaction is paramount. We are committed to delivering not just products but an experience that delights our customers. Our customer-centric approach ensures that your journey with Kashivindhya Agro is marked by reliability, transparency, and a genuine connection to the source of your food.

Growth on the Horizon

As we sow the seeds of our vision, Kashivindhya Agro looks forward to a future marked by growth, innovation, and a continued commitment to excellence. Join us on this agricultural journey, and together, let's cultivate a future where quality meets sustainability.

Thank you for choosing Kashivindhya Agro Farmer Producer Company Limited – where every harvest is a testament to our passion for quality and a promise of a better tomorrow. We conduct in-house quality checks, ensuring premium products, backed by our NABL certification.

Vermicompost (with Neem)

Raw Material Used

Cow Dung Earthworm – *Eisenia foetida*, *Perionyx ceylanesis* Neem seed/ cake

Specification

Neem khali is added to vermicompost in order to improve plant growth and improve the appearance of plants.

Neem is a natural pesticide and insect repellent, and adding it to vermicompost can help to control pests in the plants.

enriches soil with micro-organisms.

helps to cure diseases and will control the growth of nematodes and harmful plant pathogens.

Improves water holding capacity.

bio-degradable and can be used with many other different types of fertilizers.

enhances germination, plant growth, and crop yield.

The Neem cakes powder act as a nutrient for plants instead of being a nutrient collector. It contains NPK (nitrogen- phosphorus-potassium) plus other micro nutrients so the plants are fed continually.

Provides all plants nutrients in desirable quantity and soluble form.

Vermicompost (with Chicken Manure)

Raw Material Used

Cow Dung Earthworm – *Eisenia foetida*, *Perionyx ceylanesis*; Chicken manure

Specification

Chicken manure fertilizer is very high in nitrogen and also contains a good amount of potassium, phosphorus, calcium and are also rich in organic matter. The high nitrogen and balanced nutrients is the reason that chicken manure compost is the best kind of manure to use. Composting chicken manure mellows the nitrogen and makes the manure suitable for the garden. Raw chicken manure fertilizer is not suitable for plants.

Composted chicken manure provides a slow-release source of macro- and micronutrients and acts as a soil amendment.

also reduce the need to apply additional fertilizers.

increases soil's water-holding capacity, improves aeration and drainage, reduces erosion, reduces fertilizer leaching and improves soil's structure. Additionally, organic

Corn (Makka)

Raw Material Used

VNR 4226, VNR 4343, Bayer Dekalb 9208, Dekalb DKC9108

Specification

Corn is high in dietary fiber, which is necessary for maintaining a healthy lifestyle. It consists of insoluble fiber, which makes it a low-glycemic index food. This means it is a food that is digested slowly and doesn't cause an unhealthy spike in blood sugar. It also contains many B vitamins, as well as essential minerals, including zinc, magnesium, copper, iron and manganese. Corn is a good source of fiber, magnesium, phosphorus, manganese, selenium, and thiamine and an excellent source of vitamin D. Corn is a good source of thiamin and also provides vitamin C, E, and A, some fiber, and potassium. Corn also contains a prebiotic called resistant starch, which can stimulate your healthy gut microbes and create a healthier gut microbiome. Resistant starch can also help you feel fuller for longer.
