

HOLOGWARE[®]

FUTURE OF COMPUTING

Made in India

About Hologware

Hologware stands at the forefront of the technological revolution, embodying the future of computing with a commitment to innovation, quality, and customer-centric solutions. Established in 2020, Hologware embarked on a mission to transcend conventional boundaries by introducing holographic computers globally, marking a significant leap in personal and professional computing experiences.

Manufacturing and R&D Excellence

Proudly "Made in India," Hologware is the sole OEM in the country producing commercial laptops, underlining our commitment to local manufacturing and global quality standards. Our in-house R&D division is a testament to our relentless pursuit of innovation, continuously evolving and making breakthrough discoveries that redefine industry standards.

Hologware's Mission

Our mission is resolute and bold: to lead the way in seamlessly integrating holographic technology into personal computing, ensuring its widespread accessibility worldwide. At Personal Tech, we are committed to blazing trails in innovation, continuously advancing with revolutionary solutions that redefine the boundaries of possibility in the realm of personal computing.

The Hologware Promise Service-Centric Approach

Our strategy is not just about dreaming big but turning those dreams into reality. Hologware's comprehensive suite of preloaded software, including the Antivirus Protegent and Locate Laptop, ensures advanced protection and recovery for our users, setting new benchmarks in digital security.
