

UNITED MACHINES

FOLDER

Technology - Performance - Savings

UNITED MACHINES INDIA PVT LTD

www.unitedmachines.com

FEATURES:

With a big screen and intelligent control system, this folder has the interactive function. Five times of folding can be finished under the monitor of computer controller. Times of horizontal folding and vertical folding can be programmed according to requirements for the linen. This folder uses the high intelligence infrared testing system, instead of the traditional mechanical pulse counting device. It can work together with all types of flat work ironing machines.

With the function of double channels folding, this folder can improve the ironing and folding capacity of small linen, and lower the energy consumption. It has self-diagnosis function, perfect safe-protection system, and self-maintenance for testing points.

Computer board uses relay output and it doesn't need middle relay, which reduces faulty points and is easy for maintenance. All control components use 24V D, which is safe and reliable.

All control valves are air controlled.

High quality safety switches ensure safe operation and easy maintenance.

Item Name	Unit	Specification
Folding Length (max.) x Width	mm	3600 X 3300
Working Capacity (normal sheet)	m/min	30
Supply Pressure	Mpa	0.5 - 0.7
Compressed Air Consumption	L/Min	~80
Rated Input Power	Kw	0.75 + 0.37
Power Consumption	Kw/h	0.6
Drainage of Air Compressor	m 3 /min	0.3
Dimensions (L x W x H)	mm	4940 x 2530 x 1930
Machine Weight	Kg	1450
External Power Line	mm2	4 (provided by users)
Power Supply	V/P/Hz	480 / 3 / 50
