2011
Since

Bagayat Enterprises is a certified Indian natural stone company that manufactures, supplies, & exports high-quality Indian natural stones, including granite, marble, slate, sandstone, limestone, & quartzite. We deliver stones from North as well as South India. We, at Bagayat Enterprises, source different stones directly from quarries and process them at our very own stone processing factory at Bundi, Rajasthan, India.

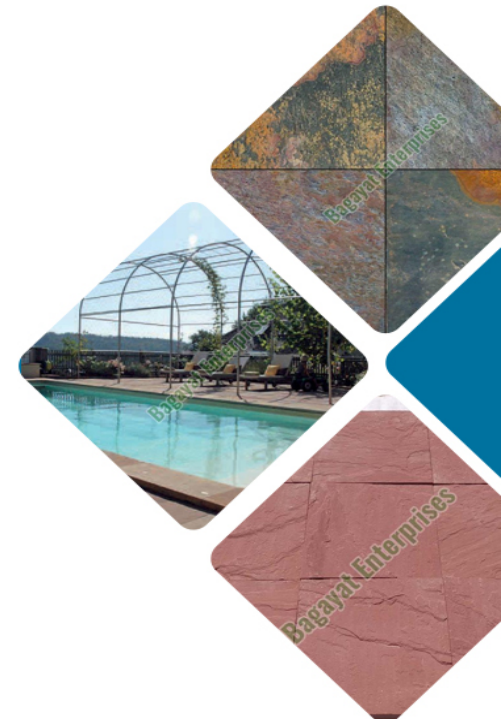

- ➔ We don't just produce, but also buy stones from other manufacturers in India. This is because the production of natural stone varieties in a single factory is practically impossible as the cost of transporting stones from distant locations to Bundi would be very high.
- ➔ Hence, in order to keep the prices as competitive as possible, we prefer to buy stones from factories situated near quarries in different regions.
- ➔ Bagayat Enterprises has experience of nearly 20 years in the production and export of all kinds of Indian stones in different countries. We have supplied an array of stones to numerous construction projects all over the world.

The USP of our natural stone company is timely supply and export of large quantities of a variety of stones in desired finishes. Over time, we have managed to develop strong and healthy relations with factories/suppliers across India and can source any stone or related products at the lowest possible price.

Our competency lies in our ability to clearly understand the customer's requirement and convincingly fulfill it in a way that would certainly bind him/her to recommend us and deal with us time and again in the future. We offer a host of services to our customers that ranges from helping customers to select the right stone, quality control, timely deliveries, fast and transparent communication to shipment assistance, and quick resolutions of customers' issues.

Our organization comprises dedicated professionals, who are highly motivated and completely aware of the underlying challenges of the industry. Our company policy is to offer high-quality stones at affordable prices and impeccable customer-oriented services, so as to build and maintain healthy and long-term relationships with prospective and existing customers across the globe.
