# About Us

**Halari Donkey Farm**, located in Dev bhumi Dwarka, Gujarat is a visionary enterprise managed by Mr. Raj Sharma & Mr. Jaydeep Sharma. Since we started our operation in 2024, the company has emerged as a trustworthy supplier and trader, specialising in a unique range of products derived from donkey milk as well as organic sources. We have a specialisation in donkey milk and donkey milk powder. We are committed to delivering quality and natural products to customers globally.

A unique offering from the farm is Donkey Milk Powder, a finest product known for its nutritional benefits. It is also used for different skincare properties. Donkey milk is revered for its rich masterpiece of vitamins and minerals, making it a sought-after ingredient in the health and beauty business. The company makes sure that the process of production maintains the quality and purity of the milk. It results in a high-grade powder.

The inclusion of donkey products in the product line showcases the company's pioneering approach to utilising all aspects of donkey farming. However, the donkey dung can be used in different organic farming and manure practices, and donkey urine is considered to have the best uses in conventional agriculture practices.

Halari Donkey Farm's global reach extends to markets. This geographical variety underscores the company's success in answering the diverse requirements of customers worldwide.

The company is professionally managed by Mr. Raj Sharma, the founder of the company. He has years of experience handling the business.
