ABOUT US

AUTOMOTIVE INDUSTRIES
UNIT OF CHOUHAN ENGG. WORKS

Located in the centre of Rohtak, Haryana, Vinod Automotive Industries is a dynamic force where creativity and accuracy combine. We are a proud division of Chouhan Engineering Works, leading the way in excellence in exporters, supplier, trader and manufacturing, and providing a wide array of excellent goods that surpass industry standards.

Unleashing the Power of Precision:

We at Vinod Automotive Industries are excellence's architects, not simply producers. Our dedication to precise engineering is demonstrated by our loading tankers. Our tankers are built with unmatched craftsmanship seen in every weld and joint, guaranteeing their longevity and effectiveness.

Prefabricated Houses Redefined:

With the help of our prefabricated houses, go into the future. We construct houses that are both comfortable and contemporary, not merely buildings. Our homes combine sustainability and creativity to offer not just a place to live but also a haven where dreams may come true.

Securing the Future of Industry:

In the industry's fast-paced environment, every nut and bolt matters. For this reason, we take great care in crafting our Industrial Nut and Flange Fittings so they will last a lifetime. We give the basis for industries to prosper, firmly rooted in the calibre of our products—we don't merely supply parts.

Our Diverse Product Portfolio:

Our strength is in our diversity. Our product line includes everything from loaded tankers to prefabricated homes, industrial nuts to flange fittings. It is a symphony of solutions. Every product showcases our commitment to innovation and pushing limits to satisfy changing industry demands.
