Established in 2012, we at Medchal Biofuel Industries have been working as a renowned manufacturer, supplier and distributor of top-quality products. We have specialisations in corn cob absorbent powder, corn cob natural powder, corn cob animal bedding material, corn cob cattle feed, and corn cob grits. We make sure to give our products strict quality and consistency standards. The company is based in Siddipet, Telangana, India. In a short time period, the company has earned a standing that has a unique combination of quality, trust, value, and reliability.

We have developed a strong reputation for producing quality products at a fair price. We consistently treat our buyers with respect and fairness; we maintain the highest service levels in the industry.

When it comes to maintaining laboratory animals to quality standards, there is no such thing as negotiation. We know that there is a special relationship between the quality of research and the fitness of the laboratory animals. We assist in keeping your animals at the highest level of health by developing bedding that is secure, all natural, and free from chemicals.

All the products are biodegradable and easy to burn. We are devoted to giving the highest quality products possible.

We ask you to contact us for more details related to the product, services, manufacturing techniques, and process.

The company is professionally managed by Mr. Karthik Reddy, CEO of the company. He has years of experience in the industry
