

Medisurge Life Science Private Limited

ABOUT US

Medisurge Life Science Private Limited was established in 2018. Our headquarter is located in Rajkot, Gujarat, India.

We are an ISO 13485:2016 and ISO 9001:2015 certified company. We always seek new technologies aiming to produce practical products with good quality and trendy designs.

We, Medisurge Life Science Private Limited are a manufacturer, Distributor, Exporter in the field of Surgical Products, medical devices for Cardiac Surgery, Pressure Monitoring, Anaesthesia, Critical Care, Respiratory, and Dialysis Products.

We have been consistently providing practical solutions to healthcare across world. Medisurge Life Science Private Limited is a Export Oriented and committed to serving world-class products through innovative and revolutionary product designs, with the overall objective of providing full value to our global customers.

A well-dedicated and professionally managed team is always on discretion to provide world-class service support to its customers in the most effective and efficient manner.

We identify the needs & gaps of our customers and create new service touch points by pioneering innovative medical disposable for them as per their exact requirements.

We believe in fostering relationships with a lasting impact and recognize customer satisfaction as integral to the larger business cycle. It inspires us to adopt a more customer-centric approach in our deliverable management processes and thereby acquire, retain, and grow our business. Above all, it enables our customers to put their faith in us and create bonds that develop into lasting relationships over the long haul.

PRODUCT LIST

1. Product : **ACLOMAD SP**
 Formulation : Tablet
 Label Composition : Each Tablet contains:
 Aceclofenac IP 100 mg
 Paracetamol IP 325 mg
 Serratiopeptidase IP 15 mg
 Pack : 10 x 10 Tablet

2. Product : **PANMAD DSR**
 Formulation : Capsule
 Label Composition : Each Capsule contains:
 Pantoprazole Sodium IP 40 mg
 Domperidone IP 30 mg
 Pack : 10 x 10 Capsule

3. Product : **RABEMAD DSR**
 Formulation : Capsule
 Label Composition : Each Capsule contains:
 Rabeprazole Sodium IP 20 mg
 Domperidone IP 30 mg
 Pack : 10 x 10 Capsule

4. Product : **ESPRMAD-D**
 Formulation : Capsule
 Label Composition : Each Capsule contains:
 Esomeprazole Sodium IP 40 mg
 Domperidone IP 30 mg
 Pack : 10 x 10 Capsule

PRODUCT LIST

9. Product : **EXAMINATION GLOVES**
- Type : Nitrile
- Details :
 - Non-Sterile
 - Powder-Free Nitrile Examination Gloves
- Size : S, M, L
- Pack : 100 Pieces

ORANGE	25G	0.50
BROWN	26G	0.45
GRAY	27G	0.40

• Conform to : ISO :7864/IS:10654 standards.

HYPODERMIC SYRINGES

STERILE SINGLE USE SYRINGES

Luer Slip and Luer Lock syringes with many variations in the needle size and gauges.

Components :

- Barrels and Plungers both are made of non-toxic, medical grade polypropylene compatible with any medication.
- Tip of the Barrel is two types - Luer mount and Luer Lock. Both have a 6% Luer taper.
- Gaskets is made of Medical Grade Thermo Plastic Elastomer which is chemically inverted and compatible with any medication for short term contract drug delivery application.

Packing :

- Single use Syringes are Ribbon packed in a double-laminated plastic film and transparent thermoformed peelable blister pack.

Precaution :

- Before use, check the integrity of the sealing of the pack.

Warning :

- Do not attempt to Re-sterilize and Re-use.

Available Specifications

1. AUTO DISABLE SYRINGES
2. INSULIN SYRINGES

I. V. Cannula / I. V. Catheter

I.V. Cannula is designed with wing, an injection port and inbuilt passive safety mechanism, which automatically triggers at the withdrawal of the needle from the catheter.

- Color coded body as per ISO Standard.
- 6% luer taper as per International standard.
- Triple point Needle for painless insertion.
- Thin walled, Radio-opaque stripped/transparent Teflon catheter.
- Luer lock cap for closing the Proximal end of the catheter after removing the needle.

1. Sterile
2. Single Use
3. Non-Pyrogenic
4. Latex Free

Packing :

- Blister pack using Medical Grade/Tyvek Paper with standard/PVC free Plastic Film.
- Per Box Options : (a) 50 Units (b) 100 Units
- Per Carton : 1000 Units.

Precaution :

- Before use, check the integrity of the sealing of the pack.

Warning :

- Do not attempt to Re-sterilize and Re-use.

Sizes: 14G, 16G, 17G, 18G, 20G, 22G, 24G & 26G

IV Cannula with Luer Lock and Wings & without Injection Port
Sizes: 14G, 16G, 17G, 18G, 20G, 22G, 24G & 26G

SCALP VEIN SET

Sterile Single use Scalp vein set is flexible fixing wings needle. Moulded from non-toxic medical grade PVC.

- Soft wings for less pain to Patient.
- Ideal for Single push Injections.
- Color Coded.
- 30 cm, kink resistant tubing.
- Effective needle length is 20 cm.

Packing :

- Individually packed in transparent and peelable packs.

Precaution :

- Before use, check the integrity of the sealing of the pack.

Warning :

- Do not attempt to Re-sterilize and Re-use.

I. V. SET

Cylindrical collapsible chamber fitted direct with spike, Super smooth non kinking tubing with very efficient moulded roller controller for extra Smooth and efficient flow rate.

- Specification as per ISO 8536-4
- EO Sterilized.
- Latex or Latex Free.
- 30 cm, kink resistant tubing.
- With or Without Airvent.

Packing :

- Individually packed in transparent and peelable packs.

Precaution :

- Before use, check the integrity of the sealing of the pack.

Warning :

- Do not attempt to Re-sterilize and Re-use.

Available Specifications

I. V. SET (PAEDIATRIC)

NEEDLE FREE I. V. SET

I. V. SET PVC FREE

VETERINARY I. V. SET

I. V. SET FOR INFUSION PUMP

I. V. SET WITH PRECISION FLOW CONTROLLER

EXTENTION LINES PRESSURE MONITORING LINE

- Made from non-toxic medical grade PVC compound
- Individually Pressure tested.
- 100 % leak proof and no Blockage.
- Soft clear Flexible tubing.
- Sterilizes by Ethylene Oxide gas.
- Provided with male and female Luer lock at either ends and fits all standard equipment.
- Available with 3-way stopcock or precision Flow controller.

Packing :

- Sterile, individually packed in peelable soft blister pack.

Precaution :

- Before use, check the integrity of the sealing of the pack.

Warning :

- Do not attempt to Re-sterilize and Re-use.

Available Specifications

EXTENTION SET WITH PRECISION FLOW CONTROLLER

EXTENTION SET WITH HIGH PRESSURE MONITERING

EXTENTION SET WITH 3 - WAY STOPCOCK

EXTENTION SET WITH T-CONNECTOR

3 WAY STOPCOCK

- Three Way Stop Cock is suitable for use during pressure infusion and invasive blood pressure monitoring.
- Comprises of one male luer lock with rotating nut and two female luer lock connectors.
- Clear transparent, polycarbonate lipid resistant body, facilitates easy visualisation of fluid flow.
- Residual Vol. ≤ 0.20 ml
- Manufactured from non-toxic medical material.
- Ethylene Oxide sterilized and Pyrogen free.
- Smooth three arm handle is easy to operate and indicates fluid path.

Packing :

- Sterile, individually packed in blister pack.

Precaution :

- Before use, check the integrity of the sealing of the pack.

Warning :

- Do not attempt to Re-sterilize and Re-use.

GAUZE CLOTH

- Gauze Cloth are traditional packing of gauze.
- Hydrogen peroxide Bleached.
- 100% Cotton.
- Consistent Layers.
- Even Edges.
- Highly Absorbent.
- ETO Sterilized.
- X-Ray Thread. / Non X-Ray Thread.
- Sterile / Non-sterile.

Size :

- Single Piece of 90 cm x 18 meter.

Precaution :

- Before use, check the integrity of the sealing of the pack.

GAUZE SWAB

Gauze swabs are a useful product can be used for wound dressing. padding, protection, blood spill, applying antiseptic and much more.

- High volume of retention.
- Free from optical whiteners & foreign matter.
- Soft & skin friendly.
- Available in Non-Sterile Bulk Packs

Size :

- 5 cm x 5 cm * 8 PLY
- 5 cm x 5 cm * 12 PLY
- 7.5 cm x 7.5 cm * 8 PLY
- 7.5 cm x 7.5 cm * 12 PLY
- 10 cm x 10 cm * 8 PLY
- 10 cm x 10 cm * 12 PLY

Precaution :

- Before use, check the integrity of the sealing of the pack.

ABDOMINAL SPONGES MOPPING PADS

Abdominal sponges are placed in the abdominal cavity to help absorb blood, fluids, and other secretions During a surgical procedure.

- Made from highly absorbent bleached cotton woven fabric
- Neatly stitched along the edges and across the sponges to avoid shifting of layers. With loop or tail. Pre-washed or plain
- With or without X-ray Detectable Thread.
- Available as Sterile and Non-sterile.

Size :

- Sizes range from 20 cm x 20 cm up to 45 cm x 45 cm in 6 /8 /12 /16 PLY.
- Also available in other customized sizes/specifications.

Precaution :

- Before use, check the integrity of the sealing of the pack.

GAMJEE ROLL

Gamjee roll are highly absorbent cotton available in low adherent gauze cover and is applied over dressing to provide low adherent wound interface.

- Made of 100% cotton and Gauze Fabric.
- High grade cotton yarn.
- Excellent absorbency, which promotes healing and also protects the wound.
- ETO Sterilized.
- Used for primary wound dressings.

Size :

- 10 cm x 2 meter
- 10 cm x 3 meter
- 15 cm x 2 meter
- 15 cm x 3 meter

Precaution :

- Before use, check the integrity of the sealing of the pack.

Cotton Roll Bandage

A wide range of Cotton roll bandage are hygienically made so that they are safe to use in various medical applications.

- Made from finest quality cotton.
- Free from loose threads(precision cutting)
- As per Drug Schedule F(II).
- Used for different types of cuts,injured wound etc.
- Individually wrapped in paper.
- Non-Sterile.

Size :

- 2", 3", 4", 6" x 2, 3, 4, 5, 6, 7, 8, 9, 10 meter.

Precaution :

- Before use, check the integrity of the sealing of the pack.

ABSORBENT COTTON ROLL

Absorbent Cotton Wool and mainly used for medical purposes in hospitals, nursing homes, dispensaries and at home (for first aid) etc. The raw natural cotton is processed by series of steps and fully automated process, which render the cotton hydrophilic in character and free from external impurities.

- 100% natural cotton.
- Free of foreign particle.
- No chemical or starch used.
- Consistent layer.
- Even edges.
- Polybags & Paper Wrap Packing.

Size :

- 10 Gram – 500 Gram

ELASTIC ADHESIVE BANDAGE

Elastic adhesive tape strips applied with localized compression over a muscle injury. To provide ample compression forces localized to the injured area without compromising circulation; limit swelling; decrease the chances of further damage to the injury site.

- High degree of adhesion to secures heavy dressings and devices
- Accommodates swelling or movement
- Stretches readily, securing irregularly contoured sites
- Provides adequate compression and support
- Improves wound approximation.

Size :

- 8 cm * 4/6 meter
- 10 cm * 4/6 meter
- 8 cm * 1 meter
- 10 cm * 1 meter

CREPE BANDAGE

Crepe Bandage, a highly effective solution for treating muscle damage and sprains. These bandages boast exceptional elasticity, allowing for optimal support and compression during the healing process. Designed to minimize movement, the bandage adheres firmly to the skin or joint surface, ensuring maximum stability and comfort.

- Material is soft and absorbent.
- Crafted from skin-friendly material that can easily be washed and reused. Fabric used is highly odor resistant.
- Strong, stretchable, and lightweight design.
- Highly elastic bandage comes with a hook closure that aids in easy application and removal of the bandage.
- Made of skin-friendly material to ensure comfort.

Size :

- 6 cm * 4 m
- 8 cm * 4 m
- 10 cm * 4 m
- 15 cm * 4 m
