# ABOUT US

**Sachdev Tissue**  
Culture Lab And Nursery

Established in 2007, Sachdev Tissue Culture Lab and Nursery embarked on its journey as a renowned manufacturer of a broad array of natural plants. Our specialization includes Desi Custard Apple Plant, Gular Flower Plant, Chandan Plant, Deshi Bamboo Plant, Gulmohar Plant, Saptaparni Plant, Karanja Plant, Shami Plant, Kadamba Plant, Teak Plant, Green Meethi Neem Plant, Malabar Neem Plant, Kadvi Neem Plant, Eucalyptus Plant, and Green Mahogany Plant. We are based in Damoh, Madhya Pradesh, India.

These plants are grown through tissue culture processes, maintaining plant cells under sterilized conditions with the aid of nutrient-rich culture mediums of specific compositions. Our specialization lies in Tissue Culture Plants, particularly in the following varieties:

- Banana G-9 Tissue Culture Plant (Primary and secondary plants)
- Pomegranate Bhagwa Tissue Culture Plant
- Guava Allahabadi Safeda Tissue Culture
- Guava Gwalior-27 Tissue Culture
- Teak Berma Tissue Culture
- Bamboo Balcoa Tissue Culture
- Bamboo Tulda Tissue Culture
- Syngonium Tissue Culture

Utilizing advanced technology, we ensure that our customers receive plants characterized by disease-free development, robust root structures, bushy branching habits, and superior survival rates.

Our customer-centric approach drives us to provide a qualitative range of plants to enhance productivity and strengthen market positions. Backed by experts with years of experience in the agro-industry and stringent quality parameters, we offer products with the utmost quality assurance.

In recognition of our commitment to excellence, Sachdev Tissue Culture Lab and Nursery holds certifications from various esteemed authorities:

- Department of Biotechnology (DBT)
- Department of Horticulture
- Registered under the Nursery Acts in Madhya Pradesh
- Registered under Madhya Pradesh Agro
- ISO 9001:2015 certified

Furthermore, we have actively participated in the National Bamboo Mission, showcasing our dedication to sustainable practices and agricultural advancement.

Supported by client-centric policies, we are dedicated to providing a qualitative range of plants to our precious buyers to boost their productivity and strengthen their market position. With experts having years of practice in the agro-industry and our strict quality-centric parameters, we offer products with the best prospects. As a quality-centric firm, Sachdev Tissue Culture Lab and Nursery strictly adheres to quality rules defined by the business.
