

# Dattani Industrial Minerals

Being a quality conscious organization, we lay lot of emphasis upon the quality of the minerals offered by us. Therefore, we subject our products to strict quality tests to guarantee quality and purity.

We offer wide array of Industrial Minerals which include, Whiting Chalk Powder, Chalk Powder (Porbandar Whiting), Chalk Lumps, Chalk Loose and many others. Tested for quality, purity and mineral content, the Minerals offered by us have carved niche for themselves in the market.

# ABOUT US

**Dattani Industrial Minerals** was incorporated in 1977, as a partnership firm involved in production of wide array industrial minerals. After inception the company has grown manifolds in terms of the quality as well as quantity of minerals offered. The able guidance of our business partners Mr. Harshit .P. Dattani, Mr. Mehul .V. Dattani, Mr. Yogi .V. Dattani, has helped us achieve new heights of excellence in Industrial Mineral Sector. Backed by advanced processing unit and stringent quality policy we have maintained our leading position in the market.

## **Business Values**

We aim to meet all the major requirements of our clients by continuously offering world class mineral products to them. To ensure this, we continuously improve and upgrade our processing facility for minerals. Keeping customer satisfaction at core of our business philosophy, we maintain long-term business relationship with our clients.

## **Infrastructure**

We are able to offer premium quality Industrial Minerals because, of the advanced infrastructural facility developed by us. We own mines from that provides us with raw minerals. Apart from that we also have spacious warehouse and advanced processing unit as part of our Infrastructure.

## **Team**

We have hired highly efficient and skilled man power that aids us in offering world class industrial minerals. Our team also undergoes regular skill up-gradation and training exercise to keep them updated about the latest developments of the sector.

## **Packaging**

We understand the importance of the tamperproof packaging for industrial minerals and therefore offer our products packed in new printed HDPE Bags / Mix tap bags as standard packaging. Moreover, as per the requirement of customers we can also deliver material in used HDPE cement bags.

## **Quality**

Being a quality conscious organization, we lay lot of emphasis upon the quality of the minerals offered by us. Therefore, we subject our products to strict quality tests to guarantee quality and purity.

## **Quality Assurance**

We are committed to ensure timely delivery of quality materials at competitive prices for the customer's complete satisfaction. We are continuously updating the products, processes and system to cope up with customers ever-changing needs. The various quality measures adopted at every stage, starting from raw material procurement to the final stage of dispatch ensures our range successfully meets the requirements of our quality conscious customers. We are focusing our attention on rigid quality control and customer satisfaction.

We have pioneered management techniques that are intended to improve the quality of our products continuously. We understand the current and up-coming needs and requirements of our esteemed client's and strive to exceed customer expectations in terms of quality.
