ABOUT US

Established in 2025, Linex Flowsense LTE is a trusted Manufacturer and Supplier of advanced industrial flow control, process instrumentation, measurement, monitoring, and flameproof safety solutions. Under the leadership of Mr. Vishal Sharma, the company has been steadily building a strong reputation for delivering dependable products designed to meet diverse industrial operational requirements.

We specialize in a comprehensive range of Sight Glasses, Level Indicators, Flow Meters, Pressure Switches, Temperature Sensors, Digital Controllers, Gas Pressure Regulators, Flameproof Lighting, Alarm Systems, Electrical Control Equipment, Industrial Valves, Strainers, and Process Control Solutions. Our product portfolio is engineered to support industries requiring accurate measurement, process safety, fluid control, temperature monitoring, pressure regulation, and hazardous area protection.

At Linex Flowsense LTE, we focus on combining quality manufacturing, technical precision, industrial durability, and performance reliability to ensure every product aligns with demanding application standards. Our solutions are widely suitable for sectors such as chemical processing, pharmaceuticals, oil & gas, water treatment, food processing, manufacturing plants, engineering facilities, and industrial automation.

Driven by a customer-focused approach, we prioritize consistent product quality, timely delivery, competitive pricing, and responsive service support. Our objective is to provide practical and efficient industrial solutions that enhance operational performance and safety.

With a commitment to innovation, engineering excellence, and long-term business relationships, Linex Flowsense LTE continues to expand as a dependable name in the industrial instrumentation and valve solutions market, delivering products that businesses can trust for performance, safety, and efficiency.
