# ABOUT US

Natraj Agri Exports is a dedicated agricultural export and trading company, established in 2020 and headquartered in Barwani, Madhya Pradesh, India—a region well known for fertile soil and high-quality banana cultivation. The company specializes in supplying premium fresh green bananas to international and domestic markets with a focus on quality, consistency, and timely delivery.

We operate as an Exporter, Supplier, and Trader, serving customers worldwide. Our product range includes Fresh Green Bananas, categorized into A Grade and B Grade Green Bananas, carefully sorted to meet varied market and application requirements. Our bananas are widely used for fresh consumption, processing, chips manufacturing, and food industry applications.

At Natraj Agri Exports, quality assurance begins at the farm level. We work closely with experienced growers and sourcing partners to ensure proper harvesting practices, maturity control, and post-harvest handling. Stringent quality checks are carried out during grading, packing, and dispatch to maintain freshness, uniform size, and extended shelf life during transit.

Our operations emphasize hygienic handling, efficient packaging, and export-ready logistics to meet international phytosanitary and buyer specifications. Supported by a strong supply network and streamlined processes, we ensure reliable volumes and competitive pricing for global importers, wholesalers, and distributors.

Driven by trust, transparency, and long-term partnership goals, Natraj Agri Exports is committed to delivering farm-fresh green bananas that meet global quality standards while promoting sustainable sourcing and responsible agricultural practices.
