Skyline Overseas, a pioneering exporter based in Surat, Gujarat, specializing in eco-friendly tableware solutions made from sugarcane bagasse. Established in 2023 by Dr. Sagar Paneliya, our company is dedicated to providing sustainable alternatives that reduce environmental impact without compromising on quality or functionality.

Our mission at **Skyline Overseas** is to promote sustainability through innovative and biodegradable products. We aim to offer eco-conscious consumers and businesses around the world a viable alternative to traditional disposable tableware. By harnessing the natural properties of sugarcane bagasse, we contribute to the global effort towards reducing plastic waste and promoting a circular economy.

At the core of our business philosophy is our vision to be a global leader in sustainable food packaging solutions. We envision a future where every meal served contributes to environmental preservation. Through continuous innovation and strategic partnerships, we strive to expand our product range and reach more markets, inspiring widespread adoption of eco-friendly practices.

Integrity, quality, and environmental stewardship are the values that guide us in everything we do. We uphold the highest standards of integrity in our business practices, ensuring transparency and fairness in all our dealings. Quality is non-negotiable for us; we meticulously craft each product to meet stringent international standards, providing our customers with reliable and durable solutions.

Environmental stewardship is ingrained in our DNA. We are committed to minimizing our carbon footprint and promoting sustainable manufacturing processes. Our products are not just biodegradable and compostable; they are also produced in facilities that prioritize energy efficiency and waste reduction.
